THE BEST IN THE BUSINESS

## On the Road with Moss Motors

One of the saddest ends for an automobile is to become a museum piece. Static, with a set of jack stands holding the tires off the ground. The smells and sounds of operation faded away. The laughter, enjoyment and thrills experienced by the owners, merely distant memories.

That's no way to treat a fine British Automobile! Fire up your baby and hit the road! Watch those smiles as you drive by and bring new memories to life. It's the whine of rubber on road and the burble of straight through exhaust in the ear. Wind in the face and warm oil in the nostrils.

Moss Motors will be there with you supplying the parts and know how to keep you on the road. You can also look for our name at club events helping to keep the camaraderie alive. In your British car it's not the destination that's important, it's the drive. We are committed to keeping your car on the road by stocking the parts you need to keep rolling, and also stopping, when necessary.

Check out our new products and look for more to come. The British car hobby is alive and well, and Moss Motors is leading the way with new products to improve safety, performance and reliability.

## Expect the Best:

- ✓ Range of Products with new items every month
- ✓ Service, with same day shipping
- ✓ Value for Money
- ✓ Catalogs
- ✓ Website
- ✓ Technical Assistance, Product Knowledge and Quality Control
- ✓ Sales Flyers

Working on automobiles is inherently dangerous. Moss Motors, Ltd. is not liable for injury or damage due to incorrect installation or use of their products. All products are sold with the understanding that the safe and proper installation and use of the products is the customer's responsibility. Follow factory workshop manual procedures and instructions, but use current shop safety standards and common sense. Some tasks will require professional advice or services which Moss Motors cannot provide.

THE LATEST FROM MOSS MOTORS

## British Standard Pipe Taps

Most British fuel and oil lines have British Standard Pipe (BSP) fittings. These taps can be used to clean threaded fittings, the 1/8" BSP is useful for oil gauge lines and 1/4" BSP fittings are used on many fuel line applications.

1/8" BSP Tap	385-760	\$22.25
1/4" BSP Tap	385-765	28.90

## Seat Heater

A little warmth in the right place can really make driving more comfortable. This therapeutic seat heater has dual zones and two settings to keep your bottom and lower back toasty. Designed to be installed under existing upholstery or seat covers, this kit is suitable for alternator-equipped cars. Sold as a set for one seat.

Seat Heater Kit	903-250	\$129.95
-----------------	---------	----------

## Hazard Switch Kit

This is a period accessory that allows four way flashers to be hooked up on a British car that was not originally equipped with them. This kit does require cutting and splicing of the original vehicle wiring so it should be installed by someone proficient with British electrical wiring.

Hazard Flasher Kit	635-625	\$98.95
--------------------	---------	---------

## Heated Blanket

Keep your knees toasty with this 12V heated blanket. 42" x 58".

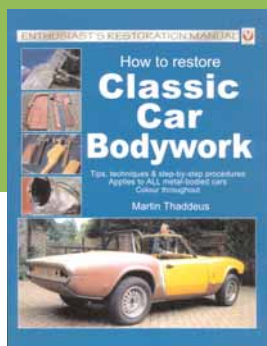

Electrically Heated Blanket	002-842	\$34.95
-----------------------------	---------	---------

## Roll Around Pneumatic Shop Stool

Improve your mechanical abilities by using the right tool for the job. Don't succumb to the detrimental effects of straining or over-exertion while working on your vehicle. This new Roll-Around Pneumatic Stool will definitely make your job easier, increasing your productivity in the garage. With pneumatic action, the seat quickly adjusts up to 20 inches tall. This stool also features a convenient 15-inch diameter tool tray to keep the tools or parts you need within easy reach. Shielded 2.5-inch casters make moving around the garage a breeze. A big, fully padded 12-inch diameter seat provides comfort for those long projects.

	336-735	\$34.95
--	---------	---------

## Book: How to Restore Classic Bodywork

We have been waiting for a comprehensive book that details typical bodywork needed by our classics including door skins, floor and sill replacement and rust repair. This book covers all these restoration techniques and is packed full of photos of denuded MGs and Triumphs being given a new lease on life. Softbound, 8" x 10 1/2", 112 pages.

How to Restore Classic Car Bodywork by Martin Thaddeus	212-416	\$32.95
---	---------	---------

## Sheepskin Wash Mitt

The natural sheepskin fibers hold soap and gently remove grime without paint damage.

Sheepskin Wash Mitt	231-645	\$7.95
---------------------	---------	--------

## Right Stuff Gasket Maker

The latest in Elastomeric Rubber Gasket technology. Useful for hard to seal areas such as differentials and oil pans. Resists coolant, oil and ATF. 5 oz

	221-450	\$18.95
--	---------	---------

## Drink Holder

Oversized 3 1/4" diameter opening will receive any cup and hold it securely. Sturdily constructed and flocked in Charcoal Grey material to complement any interior. Best of all, it is secured in place by sliding over the edge of your floor mat so you can use it in any automobile.

Large Drink Holder	100-785	\$21.95
--------------------	---------	---------

# New Products! A05

THE LATEST FROM MOSS MOTORS

## Early Sleeved Type Thermostat

The original design of most British cars called for a sleeve type thermostat, which blanks off the bypass port when the engine is hot. This type of thermostat has not been available from the factory for many years. The amount of water that is allowed to bypass the radiator with modern replacement thermostats is enough to cause overheating in marginal engines. Early Triumphs and Jaguars in particular have large bypass ports and cooling can be improved by installing our reproduction of the original style thermostat.

Reproduction Early Sleeved Type Thermostat  
434-156 \$38.95

## New Barbarian Rugby Shirts

The Genuine article: 12-ounce 100% pre-shrunk cotton, reinforcing patches, rubber buttons, overlocking heavy-duty seams.

AHY	Golf Shirt XLarge	013-522	37.95
AHY	Golf Shirt XXLlarge	013-523	37.95

## Trash Container

Put trash in its place. Our handy receptacle measures 4" in diameter and 5" tall. Securely stays in place by sliding over the edge of your floor mat. A removable plastic liner makes emptying easy.

Trash Bin 101-140 \$29.95

## Dash Panel Covers

This cover completely replaces the existing foam and vinyl on the later padded dashboards. Now you can totally renew the cockpit of your padded dash Midget.

Dash Panel Cover, '68-'74 453-815 \$249.95  
Dash Panel Cover, '75-'79 453-816 249.95

## Alternator Conversion Kit

Complete kit of all parts and instructions to convert from generator to alternator. Does not have provision for Bugeye Tach. Drive.

Alternator Conversion Kit 130-068 \$179.95

## Intermittent Wiper Kit

A comprehensive instruction sheet simplifies installation.

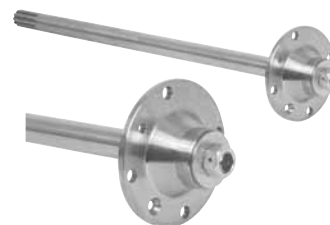

Intermittent Wiper Kit 161-250 \$55.00

## Parking Sign

For your office parking lot or car show. You know you need one.

Austin-Healey Sprite Only Parking  
215-970 20.95

## Upgraded Axle Shaft

Heavy duty shafts are machined out of EN30B Steel and heat-treated to 39-41 Rockwell hardness. The drive flange is a spline fit to reduce failures and is machined from EN24T steel for durability. For disc wheel applications only.

Competition Rear Axle Shaft 265-305 \$325.00

### Insulation Materials

#### Sound Control Super Insulation

Install on doors, floors or firewall. Dynamat's modified asphalt polymer deadens body panel vibrations. The 5 mil aluminum top layer combines heat resistance with noise deadening. 3' x 4' rolled sheet.

Dynamat Insulation 409-026 \$99.95

#### Dynamat Hoodliner

Hoodliner absorbs engine noise with .75" thick Sound Soaker urethane foam and prevents hood paint failure. Reflects 97% of radiant heat while providing engine insulation. 3' x 4'.

409-005 \$89.95

#### Space-Age Heatshield Material

Foil covered felt, heat and sound deadening material installed under carpets, over the transmission tunnel, against the firewall, etc. Insulates against hot and cold, and provides protection against fire. Sold in 48" x 72" sheets, cuts easily.

Heat Shield Material 409-015 \$29.95

Heat Shield Adhesive 409-035 9.95

Aluminum Foil Tape 409-065 4.95

#### Dynashield Insulation Spray

Use as a thermal shield, undercoat, gravel guard and rust protector. Dries to a paintable black finish. Seals joints and crevices from corrosion caused by water and road salt. 10.5 oz. can covers five square feet. No air shipment.

409-125 \$21.95

### OE Style Cigarette Lighter

To replace a defective original, or add an electrical outlet to earlier cars. This kit includes a complete illuminated lighter assembly as fitted to many British cars.

142-270 \$36.95

### Twin Air Horns

Our twin tuned air horn set includes two tuned air horns, heavy duty die cast compressor, air hose, mounting hardware and installation instructions.

Horns 545-080 \$41.95

### Accessory Shift Knobs

Each with a cloisonné medallion.

#### Walnut Crested

### Sprite & Midget Upholstery

Restore your Sprite or MG Midget to original specifications with British made reproduction upholstery kits. With duplicated original patterns, vinyls, and even dielectrically welded seams where appropriate, your car will look factory new. Our seat and panel kits are complete and straightforward to install. The seat kits (see pages 64-65) include squab and cushion covers along with seat back extension covers where appropriate. Panel kits include sufficient vinyl to cover your dash panel and cockpit as required, new footwell boards, gearbox tunnel boards, inner sill boards, door pocket boards and rear quarter panels.

### Moss Seat Kits

All front seat kits include covers for both front seats. No matter what else you do to your car, one thing which everyone notices is the condition of the seats. Put your seats in tip top condition with a "just as it came from the factory" vinyl kit, or upgrade your car's interior with one of our luxurious leather kits. (Don't forget pads and cushions - we stock a complete selection to properly fill out your new covers, and make your "new" seats as comfortable as can be.) All of the Sprite & Midget seat kits we sell are made in England of the very best materials, patterned exactly like the originals.

Free sample cards are available:  
Upholstery 878-160, Carpet 878-360.

## ACCESSORY LAMPS

### Tripod Headlamp Set

For that classic look, Moss Motors offers two versions of the Classic Tripod Headlamp. The P700 was a step up from the standard headlamp and featured an internal tripod reflector with round center cap. Our reproductions capture the look and vintage design of these lamps.

- (04) P700 Tripod Lamp Set  
156-878 \$176.95  
Replacement bulb for above lamps  
170-600 8.40

The PL700 was fitted to many Jaguars and high level sports cars. The unique lens design and prominent PL badge give a distinct look that is part of the historical heritage of our cars. These lamps are reputed to have been made on original tooling, but the quality of the lens silvering and detailing is not as crisp as original samples we have of the PL lamp.

- (05) PL Tripod Lamp Set  
156-898 \$341.95  
Replacement bulb for PL700 lamps  
170-650 8.15

### (06) 7" Halogen Headlamp Set

Made in the UK by Wipac, these high quality headlamps come with replaceable H4 bulbs. Fits all regular 7" headlamp applications.

- Wipac Headlamp Set 162-725 \$107.95  
Replacement H4 Bulb 162-755 12.95 ea.

### Fog and Driving Lamps

Quality reproductions of the classic 5 1/2" Lucas 500 series SLR and SFT lamps as originally fitted to many cars of the '50s and '60s.

#### Driving Lamps:

- Stem mount 162-700 \$139.95  
Back mount 162-760 139.95

#### Fog Lamps:

- Stem mount 162-800 139.95  
Back mount 162-770 139.95

#### Lamp Covers:

- 6" dia. Fits above 500 series lamps.  
162-705 43.95  
7" dia. Fits Lucas 700 series lamps.  
162-865 48.95

#### Replacement Bulbs:

- Driving Lamp Bulb 170-500 2.95  
Fog Lamp Bulb 170-510 4.15

### Halogen Classic Lamps

Upgrade your classic with halogen lamps. It's a great way to maintain the classic look and improve visibility. 5 1/2" Lens, Depth 2", 3/8" diam. Stud.

- Driving Lamp 162-835 \$34.90  
Fog Lamp 162-836 34.90  
Replacement Bulb 162-765 5.60 ea.

### Bugeye Rack | 07

# Exterior | A13

## CAR COVERS

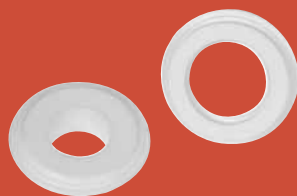

### Car Capsule | 07

#### (07) Car Capsule

Keep your car dust free, clean, dry, and protected from rodents, insects, scratches and other dangers. Park the vehicle on the laminated rubber base mat (which is impervious to gas and oil), zip the clear 8 mil PVC double-sewn cover over the car, and plug in the fan which provides continuous airflow to prevent corrosion, mildew, and musty odors. Short or long term storage. Car Capsule operates for under \$1.50 per month. Two year material and craftsmanship guarantee. Fan motor is rated for five years of continuous running. Indoor use only.

14' Size Car Capsule  
238-600 \$399.95  
16' Size Car Capsule  
238-610 419.95

#### Plastic Antenna Grommet

237-495 \$0.35

#### (08) Duravent Car Cover

If your car is constantly exposed to the elements, the Duravent cover is for you. Water resistant, yet breathable, this cover works indoors and outdoors in virtually any condition. Features include double-stitched seams with neoprene elastic sewn in the front and rear bases for a snug fit, and scratchproof grommets for locking or tying down your cover. This cover has a body specific fit for easy installation and carries a four-year warranty. Suitable for outdoors in uncovered areas.

Sprite-Midget (not 1500) 237-460 \$109.95  
Midget 1500 237-470 109.95

#### (09) Ultralon Embroidered

Maximum protection for your classic. Three layers of fabric offer excellent protection from dust and moisture, yet allow condensation to evaporate. Lightweight, compact and fast drying to allow easy storage. Proudly emblazoned with an embroidered British flag. Five Year Warranty  
Sprite-Midget (not 1500) 237-465 \$214.95  
Midget 1500 237-475 214.95

#### (10) Flannel

This is the upper end of the car cover spectrum for indoor-only use. Features include double-stitched seams with neoprene elastic sewn in the front and rear bases for a snug fit, and scratchproof grommets for locking or tying down your cover. This cover has a body-specific fit for easy installation and carries a two-year warranty. Suitable for garaged areas only.

Midget 1500**	452-030	292.95

## Double Ended Fuel Pump | 03

**(03) Double Ended Fuel Pump**

Double-ended SU pumps have been standard equipment for years on Aston Martins, Bentley and late model E-Types. Delivering twice the capacity of a standard type pump, these units will keep on pumping even if one side fails. Well-suited for all high performance engines running SU carbs, as no pressure regulator is required.

**Standard Points**

Positive Ground	377-045	\$362.95
Negative Ground	377-035	362.95

**Solid State**

Positive Ground	377-345	\$384.95
Negative Ground	377-335	393.95

**\*** Amendments to the Clean Air Act make it illegal for anyone to change or alter the emission control system of any automobile in the United States except cars used exclusively off-road.

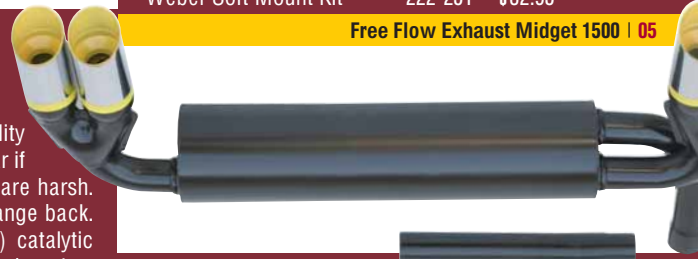

## Weber DCOE Soft Mount Kit | 04

**(04) Weber DCOE Soft Mount Kit**

Vibration plays havoc with fuel level, so any Weber DCOE installation works better when the carburetor is isolated from the manifold. This kit solves the problem and following up on customer requests we now have it in stock.

Weber Soft Mount Kit 222-251 \$32.95

## Free Flow Exhaust Midget 1500 | 05

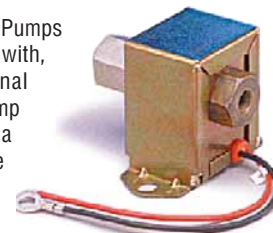

**(05) Free-Flow Exhaust System**

Increases both horsepower and gas mileage by reducing exhaust gas back-pressure. Heavy gauge steel, black with chrome-tipped ends. Front down pipe not included.

Sprite/Midget 1275	452-040	\$149.95
Midget 1500	452-050	229.95

**Solid State Fuel Pump**

Solid State Electronic Fuel Pumps can be used in conjunction with, or in place of your original pump. The solid state pump will push or pull fuel from a hidden location under the car, through your original pump, or put it in line with a power switch and use it as a backup. Works on positive or negative ground cars.

377-420 \$99.95

**SU Solid State Fuel Pump**

New from SU electric fuel pumps with modern reliable electronic, solid state switching and control which eliminates the use of contact breaker points. Now you can have a vintage looking SU fuel pump with peace of mind that only an electronic fuel pump can offer. Plus the characteristic ticking is retained.

## INTAKE & EXHAUST

**Weber Side Draft Conversion | 06**

Due to the worldwide shortage of Weber carburetors please call for availability. Prices may fluctuate from those published.

**Stellings & Hellings | 07**

### (07) Stellings & Hellings Style Air Filters

Ultra-thin design beautifully plated.

**Filter for 1 1/4" SUs** 223-100 \$31.95 ea.

### Foam Air Filters

The traditional performance washable foam filters.

Round for 1 1/4" S.U. 223-260 \$36.95  
Oval for Midget 1500 223-280 39.95

### Billet Fuel Filter Kit

The ease of cleaning and clean lines of this filter assembly will add a touch of custom brightness to the engine compartment. The chromed hose barbs can be removed and 5/16" AN-6 fittings attached directly to the body of the fuel filter giving a high degree of fitment flexibility.

377-305 \$44.95

### (06) Weber DCOE Conversion \*

High performance DCOE carburetors are still the enthusiasts choice to extract maximum power. The kit includes manifold, linkage and carburetor with ram pipes. Re-jetting and venturi changes may be necessary. We recommend that tuning be performed by an experienced tuner. Please note that there is no provision for emission connections and some modification will be required for best operation.

#### Sprite/Midget 948/1098

Single 40DCOE 222-440 \$799.95

#### Sprite/Midget 1275

Single 45DCOE 222-450 799.95

K&N Air Filter (1-3/4" deep) 222-245 64.95

K&N Air Filter (3" deep) 222-240 84.95

**Weber Conversion | 08**

Due to the worldwide shortage of Weber carburetors please call for availability. Prices may fluctuate from those published.

### (08) Weber Downdraft Carb Kits\*

The Weber DGV two barrel progressive carburetor has proven to be the most popular replacement for worn out or damaged stock carburetors and gives a good combination of performance and economy on stock engines. Kits include instructions, carburetor(s), manifold/adapters, linkage & air filter(s). Please note that there is no provision for emission connections and some modifications will be required for best operation.

Spridget 1275cc 222-275 \$579.95

ENGINE

Alloy Cylinder Head | 01

## (01) 1275 A-Series Alloy Cylinder Head

Light-weight (9 lbs.) high strength aluminum alloy cylinder heads run cooler, allow higher compression ratios, and have a greater than 35% increase in flow rate. Includes silicon-bronze valve guides and hardened valve seats. Requires 1275 valves, springs, retainers, and 12mm spark plugs (use NGK #NCP7E or Champion #RA8HC) not included. Quantities required are in parentheses. These heads do not have air injection ports, and therefore may not be used for street use on cars originally fitted with air pumps.

Alloy Cylinder Head	451-875	\$1,049.95
Intake Valve (4)	423-190	8.95
Exhaust Valve (4)	423-335	14.95
Valve Spring Set (1)	423-470	22.95
Valve Cotter (16)	460-535	4.45
NGK Spark Plug (4)	451-890	3.95

## Magnetic Oil Drain Plugs

Magnetic drain plugs help protect your engine by collecting metallic particles before they get fed through the oil system.

948-1098-1275	328-282	\$4.95
Midget 1500	328-356	3.25

## Hardness Tested Tappets

To ensure the highest quality product, we test each tappet for hardness and dimensions. The wear surfaces are then profiled and a matched set packaged with cam lubricant.

Tested Tappet Set	460-604	\$159.95
-------------------	---------	----------

## Alloy Valve Cover | 02

## (02) Alloy Valve Covers

'61-'74 Polished Ribbed Cover	224-530	\$73.95
Midget 1500 Polished Ribbed Cover	224-550	92.95
Midget 1500 Black Ribbed Cover	224-560	139.95
Replacement Chrome Cap	460-145	13.95

ENGINE

**Spin-On Adapter | 03**

**K&N Oil Filter | 04**

**Competition Gaskets | 05**

**Head Gaskets | 06**

**(03) Spin-On Oil Filter Adapters**

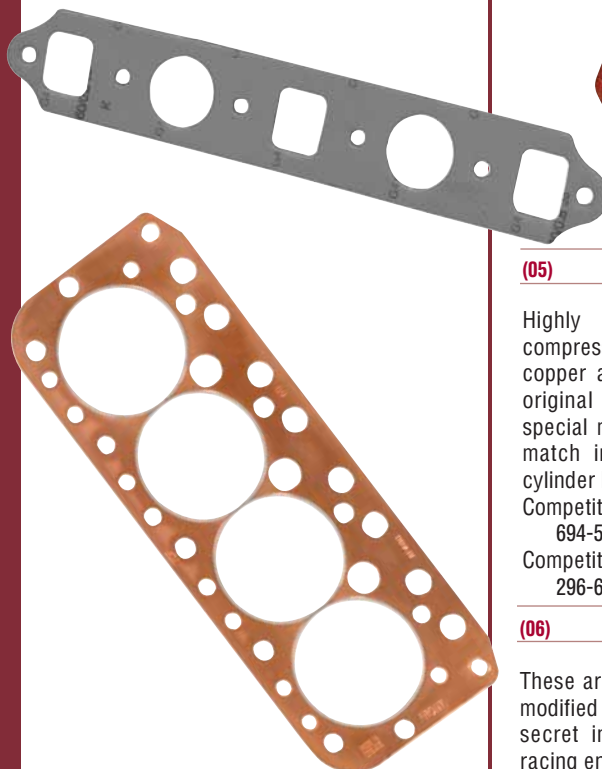

Cleaner oil changes will result if you change your engine from the messy original canister filter to a modern spin-on filter. Each kit includes all necessary pieces for installation, filter not included.

Adapter (not 1500)	235-875	\$98.95
Spin-On Filter	235-880	5.95
Spin-On Filter - Wix	235-855	11.95
Spin-On Filter - K&N	235-830	13.95

**(04) K & N Performance Oil Filter**

K&N Filter technology is the leader for your spin-on oil filter conversion. Over 550 psi hydrostatic burst strength counters sluggish performance and reduces the risk of damage. Resin impregnated filter element traps even the tiniest contaminants and isn't affected by racing fuels. Featuring heavy-duty construction with metal endcaps, anti-drainback valve and a 1" safety wire drilled wrench nut; this is the best on the market.

235-830 \$13.95

**(05) Competition Gaskets**

Highly recommended for use with high compression pistons and modified heads, the copper and asbestos head gasket is made to original British Leyland specifications. The special manifold gasket has enlarged holes to match inlet and exhaust ports on modified cylinder heads.

Competition Head Gasket (1275)

694-555 \$25.95

Competition Manifold Gasket (948-1275)

296-645 \$8.95

**(06) Head Gaskets**

These are .032" thick solid copper. They can be modified for overbored engines and have been a secret ingredient of many high performance racing engines.\*

948 & 1098cc 387-515 \$74.95

1275cc 387-520 74.95

Copper Gasket Sealant

16oz Aerosol 387-501 15.00

\*Copper head gaskets are not recommended for use with alloy heads.

**ARP High Performance Fastener Kits**

Manufactured from top grade 8740 Chrome Moly Steel. Tensile strength in the range of 200,000 psi. Threads rolled after heat treat to provide up to 10 times longer fatigue strength. Precision CNC machined to exacting specifications.

1275 cc Head & Rocker Stud Kit (11 stud)	322-998	\$208.95
1275cc Rod Bolt Kit	322-838	141.95
1275cc Main Stud Kit (exc. Cooper S)	322-888	94.95

**Flywheel Assembly**

For quicker response and improved performance, our alloy flywheel assembly is the racers choice. These lightened flywheels feature a replaceable steel face with a mechanically located ring gear. Spridget 1275

461-005 \$549.95

**Vernier Cam Gear Kit**

If you're serious about your engine rebuild, this is one upgrade you should be sure to install! Our kit includes the double row chain, along with fully adjustable cam sprockets.

948-1098-1275 460-385 \$299.95

# A20|Performance

## BATTERY & COOLING

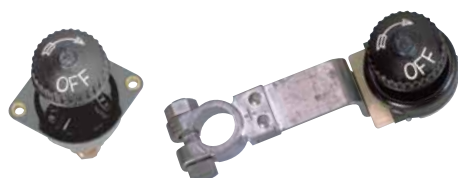

Optima Battery &amp; Tar Topper | 01

Tar Top | 02

Battery Switches | 03

### (01) Optima Battery

The Optima battery never needs water, won't leak causing damaged paintwork, and has a cold cranking capacity much higher than conventional batteries. If you want modern battery technology, but prefer a more vintage look, the Tar Topper designed specifically for the Optima is the answer.

Optima Battery	459-405	\$197.95
Tar Topper	241-035	36.95

### (02) Classic Tar Top Batteries

Our UK-made tar top batteries were fitted as original equipment to many British sports cars. An original looking battery. Shipped dry. Battery acid should be purchased locally.

12-Volt Battery	459-480	\$200.95
-----------------	---------	----------

### (03) Battery Switches

Genuine Lucas battery cut-off switches simplify servicing and long term auto storage. A strategically placed remote switch deters theft.

Remote Switch	145-770	\$125.95
Neg. Post Mount	145-780	169.95

### Battery Tray Liner

Tough, corrosion-proof battery tray liner protects precious sheet metal.

241-020	\$49.95
---------	---------

Battery Cut-Off | 04

### (04) Battery Cut-Off Switch

Quickly and effectively disconnects your battery for servicing or long term storage. Sized for negative posts.

145-795	\$12.95
---------	---------

### (05) Quick Bolt Set

Quick Bolts have a camming system to clamp down on battery posts. Simply replace the bolts in your cable ends with Quick Bolts and you can connect or remove the cables without tools.

Quick Bolt Set	900-015	\$13.50
----------------	---------	---------

### (06) Alternator Fan

Moss Exclusive. No longer available from Lucas, we have tooled up to keep this item available.

130-400	\$24.95
---------	---------

### (07) 6 Blade Plastic Cooling Fan

Back in production by British Motor Heritage, you now have a chance to replace your damaged or missing original fan blade.

Cooling Fan Sprite/Midget -74	434-560	\$41.95
-------------------------------	---------	---------

### Racing Battery Switch

Primarily intended for competition use, this rugged switch can be used on any car. The removable key deters theft. Attached rubber cap keeps dirt and water out when the key is removed. Meets FIA requirements for motor sport.

145-785	\$85.95
---------	---------

### Battery Acid Neutralizing Mat

Made from a special acid absorbent material which neutralizes acids as they leak from your battery. Easily cut with scissors to match the shape of any battery or tray.

241-025	\$6.95
---------	--------

Quick Bolt | 05

Alternator Fan | 06

6 Blade Plastic | 07

Failsafe Thermostat | 08

Hayden Electric Fan | 09

Thermostat Sleeve | 10

### (09) Hayden Electric Fans

May be set up to run in either "pusher" (in front of the radiator) or "puller" configuration. The 10" fan requires a clear mounting area of at least 10 5/8" x 11 1/8", while the 12" requires at least 11 1/2" x 12 1/2". The preset temperature control will turn the fan on at 185°F and off at 170°F.

10" Electric Fan Kit	231-678	\$129.95
12" Electric Fan Kit	231-688	139.95
14" Electric Fan Kit	231-658	149.95

### (08) Failsafe Thermostat

Manufactured from high-grade stainless steel and copper, this thermostat locks open during overheating for added safety.

180° Thermostat	434-205	\$15.95
-----------------	---------	---------

### (10) Thermostat Blanking Sleeve

For maximum power and speed, such as racing conditions, it is advantageous to remove the thermostat, but only when this thermostat bypass blanking sleeve is fitted.

Blanking Sleeve	434-135	\$22.95
-----------------	---------	---------

### (11) PriorityStart

PriorityStart | 11

PriorityStart automatic starting protector monitors battery voltage. If there is a drain taking place, it automatically disconnects the battery, leaving enough voltage to start the vehicle. The unit senses the ignition key in the "on" position and automatically reconnects the load.

459-350	\$84.95
---------	---------

# Performance | A21

## IGNITION

**Crane Electronic Ignition | 12****(12) Crane XR-700 Electronic Ignition**

Expect faster starts, cleaner running and better performance at all engine speeds.

For point-type dist. 222-680 \$130.95  
For Lucas elec. dist. 222-325 128.95

**Race Distributor | 15****Mallory Distributor | 16****(16) Mallory Distributors****Unilite Electronic Distributor**

Self contained rugged photo-optic trigger and adjustable mechanical advance. Simple three wire hookup. Shaft must be drilled for drive dog (not included). Negative ground only.

4-Cylinder Distributor 143-155 \$524.95

**Mallory Dual Point Distributor**

These distributors can be tailored to suit any engine tune. The Mallory dual point distributor is particularly well suited for Weber carb installations. Shaft must be drilled for drive dog (not included). 143-180 \$280.95

**Mallory Advance Curve Kit**

A selection of advance springs of various weights that allow you to finely tune your Mallory distributor. Complete with detailed instructions and advance curve diagrams.

Advance Spring Kit 143-236 \$39.95

**Mallory Tune-Up Parts**

Point Set (2 req.)	143-185	\$18.95
Rotor, Dual-Point	143-190	7.65
Rotor, Unilite	143-285	15.95
Condenser	143-195	7.60
Cap, 4-Cylinder	143-175	28.95

**Crane IgnitionCoil | 13****Lucas Sport Coil | 14****(13) Crane Ignition Coil**

The "nickel plated" PS40 coil complements the Crane XR-700 electronic ignition kit. Includes a ballast resistor. 143-240 \$58.95

**(14) Lucas Sports Coil**

40,000 volt output gives more starting power, and greater performance at high rpm. Works with non-ballasted ignition systems only.

143-200 \$46.95

**(15) Race Distributor**

A more original looking alternative to the Mallory dual point distributor. This points-type distributor has an advance curve designed for use with long duration race cams. Centrifugal advance only, for the serious racer. Uses 153-915 point set, 151-855 rotor and 151-875 cap.

Race Distributor	143-165	\$329.95
Replacement Points	153-915	7.00
Replacement Rotor	151-855	33.50
Replacement Cap	151-875	13.95

**(17) Performance Plug Wires**

Magnecor competition spark plug cable sets work great on street cars with either conventional or electronic ignition systems. Low resistance, yet also shielded to reduce radio noise interference.

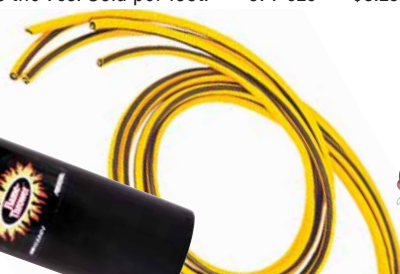

1500 Midget 143-556 \$39.95

**Universal Coil Mounting Bracket**

Replace missing, bent or corroded coil brackets. Also useful if you are upgrading or relocating the coil. 143-255 \$3.95

**Bumblebee Ignition Wire**

This type of distinctive competition wire was a very popular performance accessory with the BMC/BL Competitions Department from the 50s to the 70s. Sold per foot. 571-020 \$3.25

**Petronix Ignitor II for Mallory Dual Point Distributors**

We now carry a Petronix Ignitor system designed to retrofit 4 cylinder Mallory Dual Point Distributors. Offers the longevity of the Mallory distributor with the ease and accuracy of electronic ignition. 143-181 \$124.95

**Petronix Second Strike Ignition System & Rev Limiter**

Two sparks are better than one. This box adds a hot second spark to your ignition system to improve burning, power and efficiency. To keep the extra power under control the unit includes a Digital Rev Limiter. Fits all 12 V Negative Ground. Ignition System 222-625 \$374.95

**Petronix Digital Rev Limiter**

If you are autocrossing or racing, this unit is essential to prevent over-revving and engine damage. A 4-wire hookup and the rev limiter's small size (2.5" x 3.0" x 1.4") make installation and fitment in many locations within the engine compartment easy. Fits all 12 V Negative Ground.

Rev Limiter 222-635 \$159.25

**Pertronix Electronic Ignition**

- No external control boxes to mount.
- No points to set or change.
- Hall effect sensor is impervious to dirt, or moisture & retains stock advance curve.
- Locate Lucas model number stamped in housing by the vacuum advance.
- 30 month manufacturer's warranty.

**Points Type- Negative Ground, 25D**

222-405 \$110.95

**Points Type- Positive Ground, 25D**

222-555 127.95

**1500 with "Opus" electronic Ignition, 45DE4**

222-425 110.95

**1500 with "CEI" electronic Ignition, 45DM4**

222-475 110.95

**Pertronix Ignition Coil**

Matched to the Ignitor ignition. Ballasted ignition system was used from 1975 on.

Non-ballasted systems	143-265	\$43.60
Ballasted systems	143-270	43.60

# A22 | Performance

## BRAKING

### High Performance Front Disc Brake Pads

#### (01) EBC "Green Stuff" Brake Pads

Made in the UK for "fast road" use. Kevlar brake pads for improved stopping, reduced fade and dusting.

585-625 \$64.95

#### (02) Hawk Brake Pads

Designed for the serious street and autocross enthusiast these pads are at home on both the track and street. Note due to the increased friction levels, brake life may be decreased.

585-605 \$64.95

#### (03) Semi-Metallic Brake Pads

These special brake pad sets provide excellent overall braking performance and give you smooth straight stops from even the highest speeds. Guaranteed not to dust, squeal or fade, they typically last three to five times longer than ordinary pads.

071-537 \$40.95

#### Green Stuff | 01

#### Hawk Pads | 02

#### Semi-Metallic Pads | 03

#### Braided Hoses | 04

### Braided Stainless Steel/Teflon Brake Hose Sets

These competition-inspired brake hose sets meet all DOT safety standards and are street legal in all 50 states. Each set includes all brake hoses used on your car, with any required retaining nuts and/or copper sealing washers.

With front drum brakes	182-198	\$96.95
With front disc brakes	182-248	96.95

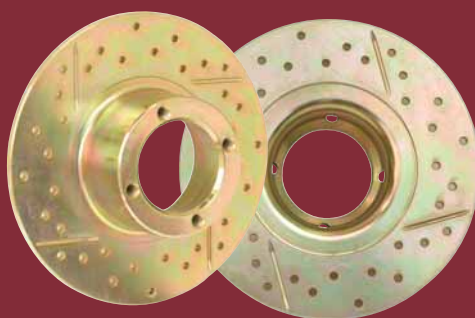

### Brake Caliper Paint System

Make your Brake Calipers look as special as the rest of your car. In a couple of hours, your calipers can have the same colorful high gloss luster found on very expensive German Sports cars. The paint has an industry leading heat resistant capability of 9000° F. Kits come complete with the following: 2 component high tech paint system, 1 can of brake caliper cleaner, 1 mixing cup, 1 application brush.

Ground Shipping Only.

Red	216-800	\$33.95
Yellow	216-801	33.95
Blue	216-802	33.95
Silver	216-803	33.95
Black	216-804	33.95
Purple	216-805	33.95
White	216-806	33.95
Green	216-807	33.95
Gold	216-808	33.95

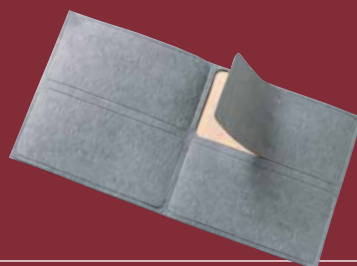

**NEW  
COLORS  
AVAILABLE**

### Cross-Drilled & Slotted Rotors

Get the stopping power you need with a Moss Motors exclusive. Cross-drilled holes lower brake temperatures and reduce rotational mass and out-gassing, while slots allow excess water, dirt and dust to dissipate. Sold as a pair.

Disc wheels only 586-600 \$198.95

### Disc Brake Anti-Squeal Strips

These foil-lined self adhesive strips fit between the pad and the piston to eliminate vibrations that cause brake squeal. Set of four.

583-805 \$5.45

### Mud Flaps

Durable, heavy duty mud flaps. Fits front or rear wheel arches. Set of two includes mounting hardware.

Midget Logo Flaps	
222-630	\$18.95
Sprite Logo Flaps	
222-620	18.95

# Performance | A23

## SUSPENSION

### Lowered Front Springs | 05

### Front Anti Sway Bar | 06

### (06) 3/4" Anti Sway Bar

The 3/4" anti sway bar is an excellent compromise for both fast road, and competition use. Increased front sway bar diameter reduces body roll and understeer which in turn gives better handling control. Use with solid mounts below.

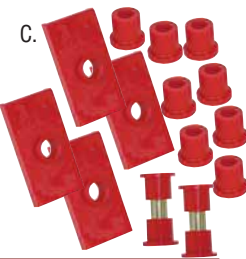

264-555 \$170.95

### Solid Sway Bar Mounts

Machined aluminum mounts may be employed for road use, but were primarily designed for competition purposes. Some increase in road noise can be expected. Use with 3/4" bars. Sold as a pair.

263-435 \$80.95

### Prothane Bushings

Superb engineering design details differentiate these from other poly-urethane replacement bushings. Grooved bores in some bushings to hold a special Teflon grease make these bushing sets long-lasting and quiet (included).

A. Front Suspension Kit includes upper and lower bushings. 280-938 \$32.95

B. 9/16" Sway Bar Mount Kit. 280-935 11.95

C. Rear Spring Kit (1/2 elliptic spring cars only) Kit includes front and rear eye bushings and mounting pads.

266-418 56.95

(07)

### Roll Bar

Our bolt-in roll bar looks great and causes minimum restriction of cockpit space. They're even designed to fit inside the convertible top. The optional pad is vinyl covered and uses snaps and velcro fasteners to keep it firmly in place. Includes mounting hardware.

1961-'69 Spridget Roll Bar 453-325 \$379.95

Roll Bar Cover 236-000 97.30

### Competition Front Springs

For serious competition, we recommend this 400 lb. spring rate front coil spring. Lowers standard ride height by 1". Fits chrome bumper cars. Available on special order only. Please allow 6 to 8 weeks for delivery.

Competition Spring 264-615 \$69.95

### (05) Lowered Front Coil Springs

For chrome bumpered cars, this spring slightly lowers the ride height while providing a useful increase in spring rate to 340 lbs./in.

Lowered Spring 264-605 \$77.95

### Front Suspension Lowering Kit

This kit contains special spacers which install between the wishbone/spring pan and the spring seat to lower your front suspension one half inch. Works with all springs. Kit includes spacers and bolts for both sides.

264-665 \$23.95

### Limited Slip Differentials

Quaife gear type limited slip differentials deliver more engine power to the ground. Great for racing, auto-crossing, driving in the snow or just for fun. Installation requires no more work than rebuilding a standard differential.

Sprite/Midget 267-075 \$1,708.95

### Nylatron Upper Trunnion Bushes

Nylatron bushings firmly locate your front suspension. Standard camber trunnion bushings are a direct replacement for your original bushings. The negative camber bushings are designed primarily for competition purposes and give improved steering and braking control. Sold individually, 4 required per car.

Standard Camber Bushing 264-585 \$12.95

Negative Camber Bushing 264-595 14.95

### Roll Bar | 07

### Tube Shock Conversion | 08

### (08) Rear Tube Shock Conversion

These kits contain the Spax adjustable gas filled shocks (adjustable from the outside). Includes new lower spring plates that incorporate an angled mounting flange. Installation is easy and instruction are included.

1959 to 1964 264-674 \$491.95

1964 to '74 264-675 491.95

1975 on 264-676 469.95

### Lowered Rear Springs

Significant gains in cornering ability can be achieved with lowered rear springs. Sold each.

1964-'74 Rear Spring 1" Lower

264-685 \$146.95

1964-'74 Rear Spring 2" Lower

264-705 \$202.95 ea.

### Aston Gas Cap

Features include quick release and easy installation. This polished aluminum Aston gas cap is theft proof.

Fits to '69. 407-125 \$159.95

### Locking Gas Cap

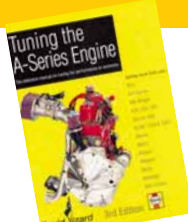

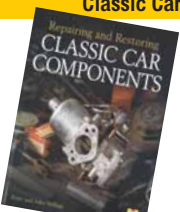

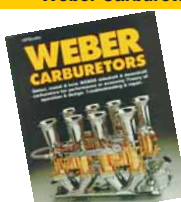

Chrome locking fuel filler cap. Includes two keys. Fits to '69

202-760 \$20.95

Midget 1500 212-415 52.95

## (07) Lucas Fault Diagnosis

For professional technicians, easily understood by the non-professional. Softbound, 8 1/2" x 11", 46 pages.

990-035 \$7.95

## (08) Component Restoration

Fuel Pump on the blink? Generator not generating? This book covers in-depth rebuilding of typical components: major electrical items, fuel components, heaters and instruments.

215-875 \$29.95

## (09) Weber Carburetors

By Pat Braden. How to select and tune Weber sidedraft and downdraft carburetors. Soft-bound, 8" x 10", 300 pages.

213-430 \$20.95

## (10) Guide to British Sports Cars

Have you ever wondered what a Jowett Jupiter looked like? Improve your knowledge of the British Sports Cars that were exported to the US. Find out the difference between a Morgan +4 and 4/4. 224 pages, very well illustrated.

213-815 \$24.95

## (11) SU Workshop Manual

Factory workshop manual for SU carburetors and fuel pumps.

211-305 \$26.70

## (12) Restoring Sprite & Midgets

Written with technical expertise and wit, this manual is packed with photos and illustrations covering all aspects of restoration.

213-305 \$44.95

## (13) Owner's Manual Reprints

Reprints of the manuals originally supplied with your car. From basic tuning and maintenance, to putting up the top. An essential book for your library.

Bugeye Sprite 212-690 \$19.95

Midget MkIII 212-705 18.95

Midget 1975-'78 213-310 19.95

Midget 1979-'80 213-320 19.95

## (14) SU Power Tuning Book

Des Hammill demystifies fuel-delivery secrets in this 63-page manual. Its expert tips can make you a master at modifying and tuning SU carburetors. Includes coverage of needle reprofiling for custom applications.

211-465 \$24.95

## (15) Sprite & Midget

By Jonathan Edwards. Technical detail, model history showing all the major variations. Invaluable to ensure originality and accuracy.

211-595

\$24.95

## Glovebox Workshop Manuals

These manuals are packed with information. Tune up data, repair and rebuilding information, dimensions and torque specs are in these compact 5 1/2" x 8 1/2" books. For all 1958-'80.

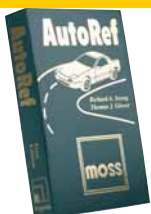

212-480

\$29.95

## & MAINTENANCE

**Auto Ref | 17****DVD: 50 Years | 18****DVD: MGs | 19****Jigsaw Puzzle | 20****(17) AutoRef**

AutoRef gives you information, including, but not limited to: charts; driving and accident helps; safety information; personal information about your car...everything you can think of that might be useful when you are in your vehicle. There is no other book like this one. Sample of Contents: Maintenance Logs, Maintenance Charts, Maps for every State & Canadian province, Tire Sizes/Ratings, Lubricants, Electrical System Diagnostics, Dashboard Symbols, Towing Charts, Mileage Charts, Accident Safety, Engine Information, Weather, Automotive Math, General Information, Conversion Factors & Tables, Much More! 5 3/8" x 3 1/4" 672 Pages.

210-320 \$12.95

**(18) DVD: 50 years of British Racing in the US**

Rare footage showing the history of British Sports Car racing in the U.S. Starting with the Collier Cup in New York to the popularity of vintage racing today. Approximate length: 70 minutes.

211-092 \$29.95

**(19) DVD: MGs Across America**

A must have for any MG video library. See how the British view our cars and hobby. Features early race footage, TV advertising, shows and a comparison between US and UK spec. MGs. Approximate length: 100 minutes.

211-090 \$29.95

**(20) Jigsaw Puzzles**

Great for gifts, or for those long winter evenings when it is too cold for driving or fiddling with the car. 308 pieces.

Bugeye 214-405 \$19.95

Sprite/Midget 214-430 19.95

**SU Tuning Tips & Techniques**

By G. R. Wade. Factory information to help you solve all standard SU problems.

211-345 \$29.95

**Super Chamois | 01****Cam & Lifter | 02**

**New!**

**Water Repellent Kit | 06****Copaslip | 03****Lead Substitute | 04****Muffler Sealant | 05****(06) Water Repellent Kit**

Created by the makers of the original windshield water repellent, this amazing glass cleaner and water repellent kit seals auto glass with a super smooth invisible barrier that repels rain, sleet and snow on contact. Dirt, road grime and insects can't stick, letting your wipers push them aside. Kit includes 10 oz bottle of glass cleanser that strips away built up dirt, insects, salt, wax, tree sap, and road grime without scratching; and 5 oz bottle of super concentrated water repellent gel that seals the glass for weeks at a time.

Kit	221-528	\$12.50
Glass Scrub	221-520	5.25
Rain Clear	221-525	7.25

**(01) Super Absorbent Chamois**

Our giant six square foot chamois really soaks up water, and it won't harm delicate paint finishes.

386-945 \$34.95

**(02) Cam & Lifter Break-In Protection**

Super Lube Break-in concentrate is an anti-wear additive formulated with a high concentration of special zinc dithiophosphate to provide sustained protection against cam lobe and lifter scuffing and wear. Should be used for the initial break-in period ONLY. Most current oils have severely reduced this zinc content leading to elevated stresses where rubbing occurs and therefore potential premature cam lobe and lifter failure.

221-430 \$9.95

**(03) Copaslip Anti-sieze Compound**

This anti-sieze is highly recommended for wire- wheel splines and knockoff threads. The Molybdenum formulation reduces galling and corrosion to improve the life of wire wheels and hubs. Wheel and hub surfaces should be cleaned and relubricated at least once per year as part of a regular maintenance program.

57g (2oz) Tube	221-405	\$7.95
250g (8.8oz)	221-410	16.95

**(04) Lead Substitute With Octane Booster**

Effective valve and valve seat protection plus a powerful octane booster that will raise octane rating by as much as 5 points depending on the type of gasoline.

220-365 \$3.25

**(05) Muffler and Tailpipe Sealant**

Improves joint sealing and eases fitting of exhaust components.

221-545 \$2.95

**Mr. Moly Lubrication Products****Liquid Grease Spray**

High quality liquid grease in a spray can with molybdenum disulfide. Suitable for lubricating door locks and hinges. No air shipping.

Liquid Grease Spray 221-415 \$11.95

**Engine Oil Supplement**

A suspension of Molybdenum Disulfide provides a friction reducing barrier able to withstand extreme pressures. Will not clog filter or passageways. Works with all motor oil including synthetics. DO NOT use during engine break in.

Engine Oil Supplement 221-420 \$11.95

**Transmission Supplement**

Molybdenum Disulfide manual transmission supplement reduces friction to reduce wear and heat in gearboxes and differentials. Do not use in automatic transmissions or limited slip differentials.

Transmission Supplement 221-425 \$16.95

Perfect Polishing Cloth	220-963	12.95

### Microfiber Cloth

Microfiber towel is made from a blend of Polyester and Polyimide. The small fibers pick up and absorb dust, dirt and grease, then releases it when washed. Cloth can hold up to 7 times its weight.

Includes 3 towels.

231-675 \$14.95

### Wire Wheel Brush

If your car has wire wheels, you need this brush! Shaped to get around the spokes without damaging your knuckles, this heavy-duty brush makes wire wheel cleaning a snap.

Wire Wheel Brush 386-940 \$7.95

### Professional Car Duster

100% cotton dusting mop is treated with special wax to trap dust. Simply shake it out and it's ready to use again. 20" long. Comes with a protective carrying case. 231-670 \$16.95

### Mini Car Duster

Wax treated cotton fibers lift dust off surfaces. Simply shake the dust out after every use. Will not scratch finish. 231-671 \$7.95

### Kozak Dry Wash | 03

### (03) Kozak Dry Wash Cloth

Kozak's specially treated long cotton fibers are woven into a thick plush nap, which draws dust up away from your paint. Cleans without water.

231-620 \$11.95

### Novus Plastic Polish | 04

### (04) Novus Plastic Polish

Bottle #1 cleans and polishes plastics. Bottle #2 restores the original appearance of plastics. Bottle #3 removes heavy scratches and abrasions from acrylic surfaces. Final finishing requires Novus #2. 8 fl. oz. bottles.

#1 Plastic Polish	220-605	\$5.95
#2 Plastic Polish	220-610	6.95
#3 Plastic Polish	220-615	8.95

### Rain•X

Will not damage wiper blades. Rain•X Anti Fog treats windows, mirrors, goggles and any other nonabsorbent surface.

Rain•X	221-550	\$6.95
Anti Fog	221-575	6.50

### Convertible Top Maintenance

The only top cleaning & protection system endorsed by Haartz. Recommended by Doug Robbins of Robbins Autotop. Keep your convertible top clean and protected, so it will last longer and stay new looking.

Top Cleaner	221-505	\$8.95
Fabric Protectant	221-510	14.95
Vinyl Protectant	221-515	11.95

## & MAINTENANCE

### Auto Dry Blade | 05

#### (05) Auto Dry Blade

This 11.5-inch Water Wand swipes away surface water. The soft silicone T-bar contours to your vehicle's shape and glides over any paint surface without scratching the finish. Produces 15% less friction than terrycloth. 001-575 \$16.95

### Lockheed | 07

### Castrol | 08

### Classic Color Paints | 10

#### (10) Classic Color Spray Paints

Paints are ozone friendly. Bare metal must be primed to achieve satisfactory results. 12 oz. aerosol cans. Ground Shipping Only.

Olive Green Engine Paint 220-580 \$14.95

Black Engine Paint 220-575 8.95

Silver-Grey Disc & Wire Wheel Paint 220-560 14.95

Black Wrinkle-Finish Paint: Dashboards, Wiper Motors, etc. 220-570 10.95

#### (11) Finnigan's Waxoyl

Your best defense against rust. Starter kit includes 2.5 liter can of Waxoyl, pump and sprayer.

2.5 Liter Waxoyl Kit 225-360 \$76.95

2.5 Liter Waxoyl Refill 225-365 40.95

5 Liter Waxoyl Refill 225-370 57.95

400ml Waxoyl Spray 225-375 16.95

#### Stop Rust with Corrosion Block

Penetrates corrosion cells, removes moisture and leaves a protectant coating. Useful for protecting bare metal during a restoration project.

12 oz Aerosol (no air shipping)

225-380 \$16.95

32 oz Pump 225-385 35.95

#### Water Wetter

A wetting agent which helps coolant "bond" to metal surfaces thus increasing heat transfer. Highly recommended for all climates. 220-115 \$9.60

#### Dashpot Oil

Specifically designed for both SU and Zenith carbs this oil will ensure your car's proper performance 125 ml. 220-225 \$8.95

#### Transmission Gear Oil

Effective in all manual transmissions. Also improves copper corrosion protection to prolong the life of brass and bronze synchro rings, bushes, and thrust washers. (1 quart)

220-145 \$9.95

#### Bosch Distributor Grease

Specially formulated for use in distributors. It will not interfere with spark or catch fire. Will not solidify with age. This is the ideal lubricant for rebuilding your distributor, and lubricating the lobes on the distributor shaft, which will extend the life of the rubbing block on the points.

221-535 \$11.95

### Connolly Hide Food | 06

#### (06) Connolly Hide Food

This is the famous "Hide Food," only the name has changed. Apply once a month to keep leather clean, soft and luxurious. Made in England. Connolly Hide Food 220-210 \$16.95

#### Connolly Leather Cleaner

Used for decades by the world's premier car manufacturers. Easily removes difficult spots on your leather interior without drying the finish. 220-211 \$19.95

#### Lexol Leather & Vinyl Products

Leather Cleaner removes grime. Vinylex is designed for everything from dash tops to convertible tops.

Cleaner 220-190 \$14.95

Vinylex 220-185 15.95

Conditioner 220-195 14.95

Cond. Refill 220-200 12.50

#### Keyston Protectant

Formulated to beautify, moisturize and protect rubber and vinyl products. 220-180 \$11.95

#### Simichrome Metal Polish

Highly recommended polishing paste for brass, aluminum and chrome. Leaves a super shine with a protective film for lasting brightness. 225-350 \$10.15

### Silicone | 09

### Waxoyl | 11

#### Brake Fluids

##### Castrol LMA & Lockheed Brake Fluid:

Both LMA Brake Fluids exceed all factory DOT specifications. Compatible with all British brake systems.

(07) Lockheed 1 pint 220-400 \$5.10

(08) Castrol 1 pint 220-455 5.50

Castrol Gallon Can 220-505 44.95

**Silicone Brake Fluid:** Will not absorb moisture from the air like ordinary brake fluids, resulting in longer life for brake cylinders and hoses. One quart is sufficient for fluid change in one car.

(09) Silicone Brake Fluid 220-410 \$26.95

#### Shock Absorber Fluid

Custom blended specifically for British Girling and Armstrong lever action shock absorbers. Convenient flip-open pouring spout for easy refills. 16 fl. ounces.

220-304 \$9.95

# A28 | Maintenance & FLUIDS

## Assembly Lube | 01

## Cam Lube | 02

## Step 1 & 2 | 05

## Hylomar | 03

## Wellseal | 04

## Engine Assembly Aids

**"Ultra Slick" Engine Assembly Lube:** Use "Ultra Slick" during assembly of camshafts, lifters, engine bearings, timing components, valves and guides and rocker shaft assemblies.

(01) Assembly Lube 221-565 \$6.25

**Cam Lube:** To make sure your new cam lasts a long time, use our cam lube when installing a new camshaft or lifters.

(02) Cam Lube 221-570 \$10.95

**Hylomar HPF Gasket Dressing & Sealer:** Holds gaskets in place during assembly and allows repositioning useable seal after assembly. Useable in temperatures from 60° to over 600°F.

(03) Hylomar 221-555 \$7.95

**Wellseal Jointing Compound:** Made in England and specified by many workshop manuals, this non-hardening gasket sealant allows you to float the gasket into position while staying flexible under load.

(04) Wellseal 221-540 \$18.95

## ReLead & Stor-N-Start

Stor-n-start is an additive that prevents deposits from forming in fuel lines and carburetors. ReLead replaces the valve lubricating qualities of lead formerly used in gas.

Stor-N-Start 220-375 \$6.50  
ReLead 220-390 10.95

## Oil Spill Mat

Keep work area surfaces clean when changing the oils or taking on any job underneath your car.  
Oil Spill Mat 221-605 \$18.95

## (05) Fuel Tank Restoration

**Step 1: Fuel Tank Restoration:** We recommend using this bio-degradable cleaner in conjunction with the etching liquid when planning to seal a fuel tank. 1-gallon.

220-620 \$35.45

**Step 2: Fuel Tank Restoration:** Use this biodegradable etcher as a prep to our slushing compound to give maximum adhesion of the sealer. Our tank cleaner should be used first to remove oils or grime. 16 oz.

220-630 \$16.50

**Step 3: Fuel Tank Restoration:** This slushing compound fluid puts a protective film on the entire inside surface of your fuel tank to prevent rust and eventual fuel line blockage. Tanks should be cleaned with 220-620, then etched with 220-630 first.

220-450 \$35.95

## Fender Cover

Our top-quality fender covers are imprinted with the logo of your MG marque. Foam rubber backing.

MG Logo 241-725 \$24.95  
AH Logo 241-735 24.95

## Tool Creeper

This creeper helps keep your tools and parts close when working. Includes a magnetic center strip to keep things from moving. The foldaway handle makes it easy to store. Dimensions are 13" x 13"

384-895 \$23.95

## (06) Self-Lifting Rolling Dolly Storage System

Slide the caster assembly under a wheel, press down on the pedal until the tire is gently lifted off the ground. The heavy duty casters allow easy movement to free up space in the garage.

Set of 2 Dollys 900-162 \$379.95

## (07) Wheel Dolly Set

Make your life less complicated with this handy space saver. An essential to every garage, our easy to use dolly set enables your car to be moved sideways for convenient storage.

Set of 2 Dollys 900-161 \$199.95

## (08) Auto Dolly

Wide heavy duty rollers and 6000 lb capacity makes maneuvering your car easy.

Set of Four Dollys 900-163 \$154.90

## Parksmart Parking Mat | 09

## (09) Parksmart Parking Mats

No more denting or scratching your bumper. The flat tongue uses the weight of your car to keep these mats in place. Sold individually.

Parking Mat 200-600 \$17.95

## Disposable Gloves | 10

## Disposable Mechanic's Gloves

Biodegradable natural latex gloves are ideal for any messy job. Provides a natural grip and feel that fits either left or right hand. 100 gloves per box.

(10) Disposable Gloves 228-690 \$10.95

## Nitrile Hypoallergenic Gloves

Resistant to many common auto chemicals. Non-latex and hypoallergenic. 100/box  
228-695 \$12.95

# Workshop Tools | A29

## & EQUIPMENT

Self-Lifting Dolly | 06

Wheel Dolly Set | 07

Auto Dolly | 08

Alignment Gauge | 11

### (11) Alignment Gauge

When you work on your car's front end, the toe-in should be checked and adjusted. Take a measurement off the back of the front tires, measure again at the front and read the difference off the large scale, adjust your tie rod ends and measure again. 387-085 \$42.95

### King Pin Reamer

To install new king pin bushings, they must be carefully reamed in perfect alignment after installation. Moss has the special factory king pin reamer. Not for cars with front drum brakes.

King Pin Reamer 386-380 \$302.95

### (12) SU Tool Kit

An assortment of handy tools for the included. Suitable for all cars with SU carbs. Includes jet wrench (386-400) below. 386-300 \$23.95

### SU Jet Wrench

Mixture adjustments on SU H and HS carburetors are much easier with the proper tool. 5/16" W (.600" nut) fits original carbs. 17mm (.669" nut) fits new upgraded carbs.

5/16" W Wrench 386-400 \$2.95  
17mm Wrench 386-401 8.15

### (13) Carburetor Synchronizer

Used to synchronize airflow between multiple carbs, this is an indispensable tool for the serious home mechanic. 386-200 \$32.95

### (14) "Synchronometer" Flow Meter

Easy-to-read flowmeter allows accurate adjustment of multiple carburetor installations. Made in Germany. 375-321 \$48.95

### Gunson's Colortune

A glass topped spark plug allowing you to see the color of combustion in your cylinders. Comes with special glass topped spark plug, viewing system for difficult plug locations, tuning procedure complete with troubleshooting guide. Gunson's Colortune 386-210 \$72.95

### Flashtest

Gunson's Flashtest checks the condition of your car's ignition high-tension circuit, by measuring the strength of the voltage at the spark plugs. This tool can detect voltage problems at the start. 386-875 \$17.95

### Exhaust Gas Analyzer

Tune your car for best performance and low emissions. Measures carbon monoxide in your exhaust to help tune for best performance and economy. New digital version. 386-220 \$244.95

SU Tools | 12

Synchronizer | 13

Synchronometer | 14

Jet Centering Tool | 15

Ignition Wrench Set | 16

### SU Jet Centering Tool

Jet centering is critical on older fixed needle SU carbs. This simple tool makes it a snap.

(15) Centering Tool 386-500 \$21.95

### Ignition Wrench Set

High Quality Ignition Wrench Set by King Dick. Sizes 0 to 10 BA will handle most fasteners less than 1/4" on the car.

(16) Wrench Set 385-000 \$58.70

### Bosch Distributor Grease

Specially formulated for use in distributors. It will not interfere with spark or catch fire. Will not solidify with age. This is the ideal lubricant for rebuilding your distributor, and lubricating the lobes on the distributor shaft, which will extend the life of the rubbing block on the points.

Distributor Grease 221-535 \$11.95

### Shop Apron

MG logo shop apron with adjustable straps and three deep pockets.

217-200 \$19.75

# A30 | Workshop Tools

## On-Board Battery Charger

- Attaches permanently to battery tray or fender well, mounting hardware included.
- Molded plastic sealed case resistant to water, gasoline, oil, solvents and acids.
- Charges & maintains 12-volt batteries.
- Totally automatic, if the battery drops 1 volt, the charger switches on, when fully charged it switches itself off.
- Every sports car owner who only uses his car part of the year needs one of these. Deep discharge appreciably shortens battery life.
- Operates from any regular 110-volt outlet. Unit remains in car. Dimensions: 5 1/2" x 3 1/2" x 1 1/2"

## High Tech Wheel Chocks

These wheel chocks have ridges on the ramp area and rubber pads under the leading edge to help stabilize tires to garage floor. Set of two. 900-150 \$15.25

## RhinoRamps

Maximum-strength reinforced plastic. Full-depth internal ribs allow 12,000 pound gross vehicle weight. 17 degree incline angle (use on vehicles with low ground clearance), 6" working height, and 9 1/2" track width. Non-skid pads. Set of 2. Ramps 400-800 \$64.95

## Lift-the-Dot Hand Punch

Aimed at Professional installers, this tool would make a fine car club tool box addition. Punches center hole and prong holes for installation of Lift-the-Dot fasteners to make installation of tops and tonneau covers a cinch.

Lift-the-Dot Hand Punch 226-105 \$69.95

## Tilt Lift | 01

## Clickadjust | 02

## Grease Gun | 03

## (02) Clickadjust

Adjusting tappets is never a pleasant chore. This British tool takes much of the effort out of this necessary job. Turn the handle, click and tighten. Your clearance is set! Replaces the clumsy screwdriver/wrench combination with a single easy to use tool. Requires a 1/2" drive socket to fit tappet adjustment nut.

Clickadjust 386-205 \$80.95

## (03) Grease Gun

For all those maintenance tasks.

386-710 \$38.95

## Clutch Tool | 04

## (04) Clutch Alignment Tool

For easy engine/transmission assembly.

948-1098-1275 387-320 \$4.95

Midget 1500 387-330 4.95

## (01) Oberg Tilt Lift

Allows easy adjustment of an engine's lift angle through a full 90° of movement. Adjust with 1/2" ratchet; 2,000 pound capacity with a 3:1 safety load factor. A positive lock ensures the engine stays put. All steel construction & small size.

386-730 \$75.95

## Mityvac

This popular vacuum/pressure pump is perfect for bleeding hydraulic systems. Includes: vacuum/pressure pump, vacuum gauge, 1/4" tubing, automotive and brake bleeding adapter packages, reservoir jar and manual. Detailed instructions and ideas for additional uses.

386-215 \$39.95

## Steering Wheel Nut Socket

An absolute necessity for removing steering wheel retaining nuts. A worthwhile investment — offered in 1 5/16" and 1 1/2".

Wheel Nut Socket 384-906 \$17.95

## Snap Installation Tool

Install button snaps without damage.

386-980 \$9.85

**New!**

## Mityvac Fluid Transfer Pump

Just what you need to add to your tool kit. Useful for transferring liquids or can be used as an inflator. Fill or drain gearbox or differential, includes hose reducer and pickup tube that will fit down many engine dipstick tubes.

386-275 \$15.95

## Vizibleed Bleeder

Place the hose over a bleeder screw, put the check valve in an empty container, open the bleed screw and pump the pedal until clean, air bubble free fluid flows through the hose.

Vizibleed 386-885 \$17.95

## Brake Lube Sachet

Aids in the assembly of natural rubber brake components. Recommended for master cylinder boots or hydraulic expander assemblies where rubber is present. Use one sachet per wheel.

Brake Lube 220-440 \$2.10

## Workshop Tools | A31

Air Powered Bleeder | 05

Eezibleed | 06

**(05) Professional Air Powered Bleeder**

Air powered hydraulic bleeder uses siphon to bleed hydraulic systems. Hook the unit to air source, set air pressure to desired power, open the bleed screw and squeeze the handle.

Air Power Bleeder 386-225 \$159.95

**(06) Eezibleed Kit**

Kit includes a pressure vessel to hold new fluid, a pipe with interchangeable caps to fit most hydraulic master cylinders and an air hose to connect to a tire. Instructions included.

Eezibleed Kit 386-868 \$64.95

**Brake Pipe Tools**

Small tool bends up to 1/4" diameter. Large tool bends up to 3/8" diameter to a minimum radius of 3/4". Clamp tool clamps flexible brake hoses.

Large Pipe Bender 385-895 \$89.95

Small Pipe Bender 385-885 34.65

Clamp Tool 386-855 16.50

**Drum Brake Adjusting Wrench**

Get a better grip on brake adjusters with our specially designed wrench. It has 1/4" and 5/16" square boxed ends, and a long handle for improved leverage.

386-160 \$12.95

Engine Stand | 07

**(07) Engine Roll Around Stand**

If you have a spare engine to store, this stand makes it easy to move and keeps it off the ground. Dismantled, the engine stand stores easily until next needed.

Engine Stand 384-925 \$104.95

**Fire Extinguisher**

2 lb. dry chemical extinguisher, U.L. rated 5-B:C to protect against electrical, fuel and oil fires. 11" x 3.5" size, mounting bracket included.

# How To Order | A35

## SHIPPING RATES & PROCEDURES

### PAYMENT

VISA, Mastercard, Discover, American Express, certified checks, money order or personal checks (which may be held until cleared). \$10.00 minimum order. If paying by charge card we will require charge card number, expiration date, complete billing address and the CVV2 code on back of card.

### PRICES

All prices are subject to change without prior notice. Moss Motors reserves the right to correct any typographical errors.

### SHIPPING

- Orders received by 3 p.m. local time are normally shipped the same day.
- We will ship by ground unless Air Delivery is specified.
- Alaska, Hawaii, Puerto Rico please use 2nd Day or Next Day Delivery only - add \$5 to chart. (Delivery times not guaranteed.)
- Oversize Shipments – Shipments under \$1,200 and over 130" length plus girth will be charged actual freight.
- Each shipment will reflect the appropriate shipping charges, including handling and insurance, listed on the chart below, dependent upon the parts value in each shipment.
- Orders shipped to California or New Jersey will be charged state sales tax.

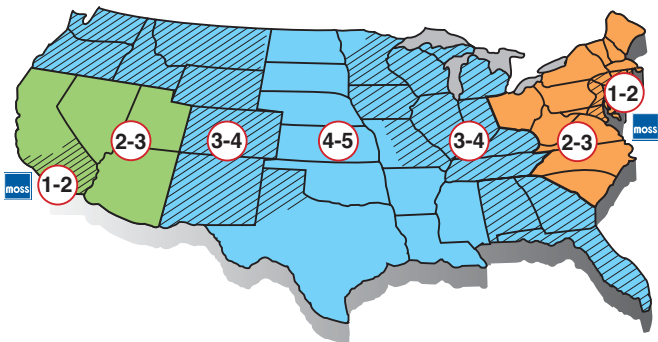

### FOREIGN ORDERS (Includes Canada)

Foreign orders are charged actual shipping charges. Shipping quotes provided on request. All duties and taxes are the responsibility of the customer. Foreign orders must be paid with a credit card or check in US funds. There is a \$10 charge to cover shipping and handling costs for catalogs shipped outside of the U.S. and Canada. One catalog per request.

### PARCEL DELIVERY SERVICE

Follow these simple steps to figure your exact total...

1. Determine parts total and choose Ground or Air Service.
2. Figure your ground shipping and handling charges based on your parts total and area using the map and chart below.
3. CA and NJ residents add sales tax. You now have your combined order total.

### Areas / Approximate Delivery Time (In Days)

- This map represents approximate working days for Ground Delivery. (As quoted by our carriers, not guaranteed.)
- It also assumes that we can ship from the nearest warehouse. Items shipped from the alternate warehouse will take longer.
- Back orders can be cancelled at any time prior to shipment.

#### US - Ground Rates (48 States)

Order Total	Western Area	Central Area	Eastern Area
\$10.00 to 20.00	\$6.15	\$6.95	\$6.85
20.01 to 50.00	8.75	10.25	9.95
50.01 to 75.00	10.95	12.95	12.65
75.01 to 100.00	12.95	15.30	14.95
100.01 to 150.00	14.95	17.60	16.95
150.01 to 200.00	16.95	19.95	19.35
200.01 to 300.00	19.45	22.95	22.15
300.01 to 400.00	21.95	25.95	25.20
400.01 to 600.00	24.95	29.35	28.50
600.01 to 1200.00	Free Ground Shipping in the contiguous 48 states. Oversize packages greater than 130" length plus girth and truck items will be charged actual freight.		
1200.01 and Up	Free ground shipping in the contiguous 48 states.		

### SHIPPING continued

#### GUARANTEED AIR DELIVERY SERVICE (48 States)

- Guaranteed Next Day Air, Next Day Air Saver and 2nd Day Deliveries available.
- Next Day Air & Next Day Saver orders must be pre-paid by VISA, AMEX, MasterCard, or Discover.
- Moss guarantees that orders received before 3 p.m. your local time will arrive on time (barring weather problems, or "Acts of God"), or shipping and handling charges will be refunded.
- 2nd Day Air is guaranteed to be delivered by end of day the second business day after shipment. Next Day Air Saver is guaranteed to be delivered by end of day the day after shipment. Next Day Air is guaranteed to be delivered by 10:30 a.m., noon or end of day the day after shipment, depending on destination.
- Rates apply to orders with a real (or dimensional) weight of 50 pounds or less. If over this amount we will contact you with your shipping options.
- Saturday Delivery: Next Day Air orders placed on Friday for Saturday delivery will be charged an additional \$12.50. Saturday delivery does not apply to Next Day Air Saver and is not available in all areas.
- A.P.O., F.P.O. and P.O. Box orders are not guaranteed and will be shipped Parcel Post.

#### US - AIR RATES (AK, HI, PR add \$5.00)

Order Total	2nd Day Air	Next Day Air Saver	Next Day Air
\$10.00 to 20.00	\$12.60	\$21.75	\$28.85
20.01 to 50.00	16.30	25.95	35.25
50.01 to 75.00	18.85	29.95	41.35
75.01 to 100.00	24.95	37.40	49.95
100.01 to 150.00	28.85	43.55	56.60
150.01 to 200.00	35.25	49.85	62.90
200.01 to 300.00	38.95	55.95	71.75
300.01 to 400.00	45.95	60.95	79.30
400.01 to 600.00	48.95	65.95	85.55
600.01 to 1200.00	37.75	54.85	72.95
1200.01 and UP	45.35	59.85	79.95

**WHEN YOUR ORDER ARRIVES** • Delivery of merchandise in good condition is the responsibility of the carrier. Should your order arrive in damaged condition, immediately inform a Moss Motors' customer service representative at 1-800-689-9313. You must make claims for damage during shipping to Moss Motors within 3 days. Keep original box and packing material. If your order was shipped truck freight, note damage on the bill of lading when signing the delivery receipt. If there is any other question about your order, contact customer service within 10 days.

**BACKORDERS** • Backordered items will be shipped and invoiced when available.

Backorders are shipped free but carry a handling charge of \$1 per \$50 of value. You may request "No Backorders" or cancel backorders at any time prior to shipping. Canadian backorders will be charged based on actual freight. Canada is the only foreign country we backorder to.

**WARRANTY** • All products are warranted against defects in material and workmanship by the original equipment manufacturer or Moss Motors, Ltd., for 12 months from the date of shipment. We will replace the product or refund your purchase price at our discretion. The warranty does not cover labor, failure of a related component, failure resulting from faulty installation, nor would the liability of Moss Motors exceed the cost of the original component.

**RETURNS** • You may return new and uninstalled products in resalable condition for a full refund excluding shipping and handling charges for up to 6 months from date of invoice. Returns over 6 months, but less than 12 months will be charged a 10% restocking fee to cover our processing costs. We reserve the right to charge up to 20% when no invoice is supplied and/or there is substantial work involved to process your return back into stock. Items over 12 months old are not returnable. Please remember to always inspect the parts upon receipt of your order to avoid any difficulties later on. To return a part follow the instructions printed on the back of the invoice. Make sure to package the products carefully to avoid damage during return and include all original packaging and a copy of the invoice. Refunds will not be issued for installed, damaged, incomplete, "Custom" or "Special Order" items. If a return is due to our error, we will reimburse reasonable freight charges. We will not reimburse additional charges for shipping/packaging services. Electrical items that have been installed are not returnable.

**CATALOG ERRORS** • Every effort has been made to provide accurate information in this publication. We will not be held liable for inaccuracy of pricing, description or application.

## About This Catalog

This catalog covers parts for USA-specification left hand drive cars. In producing this catalog, our primary goal was to publish a listing of Sprite & Midget parts which was as comprehensive, accurate and informative as possible for the USA market. In doing this, we have made every effort to correctly identify and include every part likely to be needed to repair, restore or maintain your car. Although some of the parts listed are not currently available, our Product Development staff is constantly seeking new suppliers and manufacturers of quality reproductions of otherwise obsolete items. The current Moss Motors website ([www.mossmotors.com](http://www.mossmotors.com)) pricing is always the best indication of availability.

Local laws and regulations relating to pollution, safety and lighting equipment vary considerably from state to state and country to country. Since we distribute parts for these cars on a worldwide basis, we are not in a position to advise what laws are in effect in each locality. We strongly encourage anyone contemplating any modifications to a vehicle intended for street use, to check local regulations before proceeding. We strongly suggest that you save all old stock equipment should reinstallation be necessary at a future date.

**NOTE:** In the body of this catalog, items with indented descriptions are components of the non-indented kit or assembly above them.

### Supersession and Rationalization of Parts

Most owners of British cars have, at one time or another, ordered an original "factory" part from an authorized dealer, only to find that the part received was different from the original, although it did work. This is the result of the supersession or rationalization of parts by the factory. Supersessions occur when a part is modified, and the original design or pattern is no longer produced. If old and new parts are interchangeable, even though they may appear slightly different, the old part is superseded by the new part. Rationalization is an attempt by the factory at efficiency in which one new part replaces several original parts, after which the original parts are no longer available.

This truck symbol indicates that the item is shipped by truck, freight collect, payable on delivery.

### WARNING!

Working on automobiles is inherently dangerous. Moss Motors, Ltd. is not liable for injury or damage due to incorrect installation or use of their products. All products are sold with the understanding that the safe and proper installation and use of the products is the customer's responsibility. Follow factory workshop manual procedures and instructions, but use current shop safety standards and common sense. Some tasks will require professional advice or services which Moss Motors cannot provide.

By special licensing agreement with British Motor Heritage Ltd., Moss Motors, Ltd., is a fully authorized manufacturer and distributor of British sports car spares. With official support from the original manufacturer, we are able to produce a wide range of reproduction spares which meet or exceed the original factory standard of quality. In conjunction with British Motor Heritage, Ltd., Moss Motors is dedicated to the preservation and restoration of British sports cars. The British Motor Heritage, Ltd. and marque trademarks, as well as some exploded view artwork included in this publication, are the property of British Motor heritage, Ltd., and are reproduced under licensing agreement by Moss Motors, Ltd.

# Manuals & Books

## Factory Workshop Manual Reprints

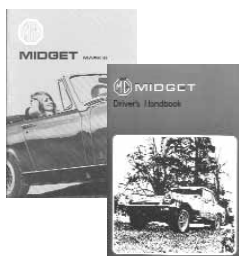

Bugeye Sprite	212-465	\$63.95
Sprite MkII on Midget to '74	212-475	\$68.95
Midget 1500	212-415	\$52.95

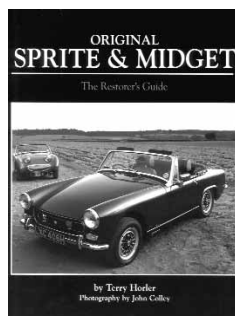

## Haynes Workshop Manual

Excellent guide to Sprite/Midget tune up and maintenance.  
212-380 \$18.95

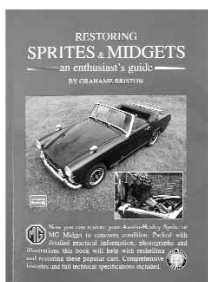

## Owners' Manual Reprints

Sprite Mki (Bugeye)	212-690	\$18.95
MG Midget MkIII ('68-'74)	212-705	\$18.95
MG Midget 1975-'78	213-310	\$19.95
MG Midget 1979-'80	213-320	\$19.95

## Original Sprite & Midget

Highlighting every detail, production change, and mechanical specification, this is the definitive guide to bringing these "honest little sports cars" back to their original condition - from the "Frogeye" Sprite MkI to the rubber bumpered Midget 1500. Softbound, 8 3/4" x 11 1/2", 144 pages, over 225 color photographs.  
211-406 \$24.95

## Restoring Sprites & Midgets

Now you can restore Your Sprite or Midget with the help of this comprehensive and entertaining book. Packed with detailed practical information, photographs, illustrations, and technical specifications. Softbound, 8" x 10-3/4", 210 pages.

213-305 \$44.95

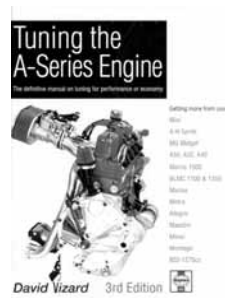

## Glovebox Size Workshop Manual

Though not as complete as the full factory manuals, this clever new manual is packed with information. Tune up data, repair and rebuilding information, dimensions and torque specs are all here in this compact 5-1/2" x 8-1/2" book.  
212-480 \$29.95

## Brooklands Gold Portfolio

Actual articles from road tests of the era. In-cludes impressions, technical data and comparison tests done when the cars were new. Softbound, 8" x 10", approx. 160 pages.  
212-359 \$46.95

## Tuning A Series Engines

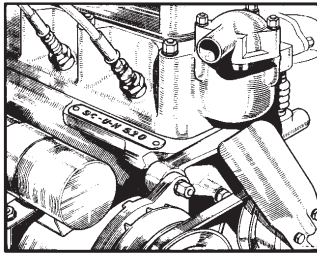

New 3rd Edition. Highly detailed and complete coverage of building and tuning tips. Originally written for the Mini owner, this is a "must-have" for every A-Series Spridget owner. Much of the information is also applicable to the bigger B series engine as used in the MGB. Hardbound, 8-1/2" x 11", 520 pages.  
212-160 \$44.95

## Identification Numbers

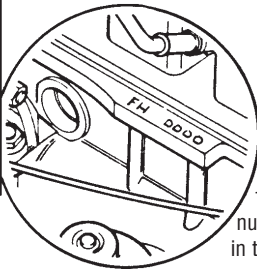

When ordering parts it is essential to identify your car exactly. Since the changes made by the factory in the course of production have been followed over the years by individual changes made by each owner, it can be extremely difficult in some cases to correctly identify some of the components of your car. To compound the problem, some states title a car by its year of sale rather than the year of its manufacture. In order to make it as easy as possible for you to give us the information we need to supply you with the proper parts, we have found that the common practice of referring to the car series by its engine size ("948, 1098, 1275, & 1500") works quite well and have adopted this system for our listings where possible. Where further detail seemed necessary, we have used the "Mark Series" and "model year" (which should not be confused with the build date). In a few cases, especially in the later cars, we have cited engine and body numbers.

For the sake of simplicity we delete the alpha numeric prefix from the change points in our application. Example G-AN4-72033 is (c)72033. These letters will pinpoint certain production features but will not affect the application of individual parts as listed. Considering the few remaining "original" Spridgets, this seems to be a rational system that covers most applications.

Location of 948, 1098, 1275 engine number stamped in the block

## Engine Identification

Location of 1500 engine number-stamped in the block

Example: 9 CG/ U/ H 12345

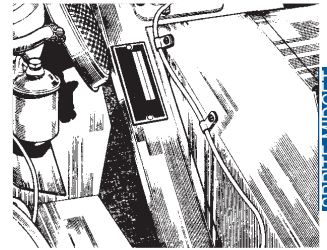

Serial # of Unit  
 H - High Compression  
 L - Low Compression  
 U - Center Change Box  
 DA - Close Ratio Center Change Box  
 C - Austin-Healey  
 CG - Austin-Healey or MG\*  
 CC - Austin-Healey or MG\*  
 9 - 948cc  
 10 - 1098cc  
 12 - 1275cc  
 \* also used are: CE, CF, CH, CJ, CK, & V

Note: The serial numbers on Spridget engines do not match the chassis or body numbers.

There are several good published sources of Sprite/Midget production data. Some variation occurs due to inconsistencies in factory record keeping and individual interpretation of available data. Production dates are sometimes confused with model year dates. The factory kept no running totals. The entire Sprite/Midget production came from Abingdon except for 489 Sprites and 476 Midgets which were built at Cowley in 1967. These "Cowley" Spridgets may carry an "M" suffix.

## Chassis Numbers

The chassis number is stamped on a plate secured to the left-hand inner wheel arch valance under the hood and provides basic information about your car.

SPRITE-MIDGET

Example: H AN5 L 12345

Serial Number  
 Left Hand Drive (U-U.S.A.)  
 Series  
 2 Seater  
 Engine Type (A Series)  
 (H) Austin-Healey  
 (G) MG Midget

Note: An additional prefix was used from 1970 to indicate the model year.

## Production Information

Model Year Build Date 1st Car of model year Model

### Midget

	Jun 1961	G-AN1-101	MkI (948)
	Sep 1962	G-AN2-16184	MkI (1098)
	Mar 1964	G-AN3-25788	MkII
1967	Oct 1966	G-AN4-52390	MkIII (1275)
1968	Nov 1967	G-AN4-60460	MkIII
1969	Dec 1968	G-AN4U-66226	MkIII
1970	Sep 1969	G-AN5UA-74886	MkIII
1971	Jun 1970	G-AN5UB-89515	MkIII
1972	May 10, 1971	G-AN5UC-105501	MkIII
1973	Jul 13, 1972	G-AN5UD-123731	MkIII
1974	Aug 23, 1973	G-AN5UE-138801	MkIII
1975	Nov 19, 1974	G-AN6UF-154101	1500
1976	Aug 1975	G-AN6UG-166301G	1500
1977	Dec 14, 1976	G-AN6UH-188001G	1500
1978	Aug 24, 1977	G-AN6UJ-200001G	1500
1979	May 9, 1978	G-AN6UL-212001G	1500
	Dec 7, 1979	G-AN6-22526	last Midget

(There seem to have been no "official" 1980 model year Midgets, although some USA cars are titled as such.)

### Sprite

	Mar 31, 1958	H-AN5-501	MkI ("Bugeye")
	Feb 1961	H-AN6-101	MkII (948)
	Sep 1962	H-AN7-24732	MkII (1098)
	Mar 1964	H-AN8-38829	MkIII (1098)
1967	Oct 1966	H-AN9-64735	MkIV (1275)
1968	Nov 1967	H-AN9-72041	MkIV
1969	Dec 1968	H-AN9-77591	MkIV

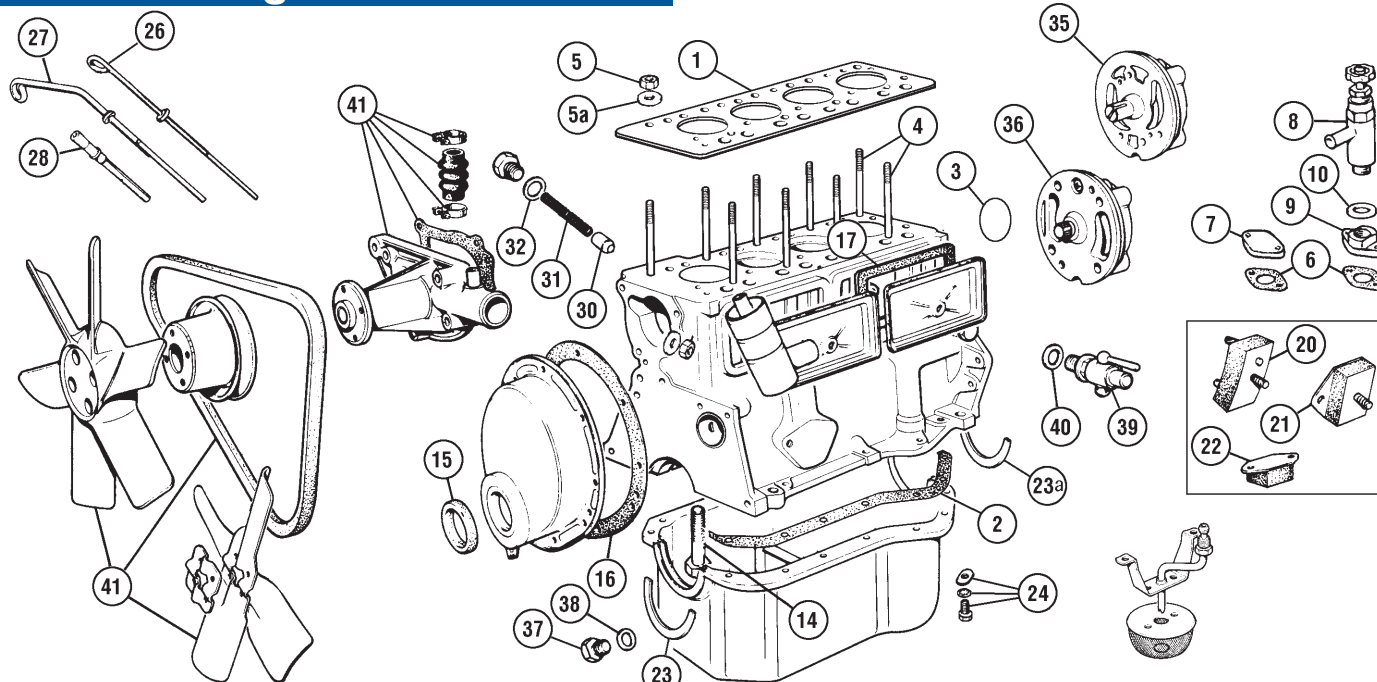

(Sprite exports were stopped for all foreign markets in early 1969, although production for the home market continued until July 6, 1971.)

## Spin-On Oil Filter Adaptor

This Moss-designed filter head & pipe enables the use of a high capacity and economical spin-on filter. Does not fit Midget 1500.

235-875	\$98.95	Spin-on Adaptor
235-880	\$5.95	Filter, Fram
235-830	\$13.95	Filter, K&N
235-855	\$11.95	Filter, Wix

## Competition Gaskets

Highly recommended for use with high compression pistons and modified heads, the copper and asbestos head gasket is made to original British Leyland specifications. The special manifold gasket has enlarged holes to match inlet and exhaust ports on modified cylinder heads.

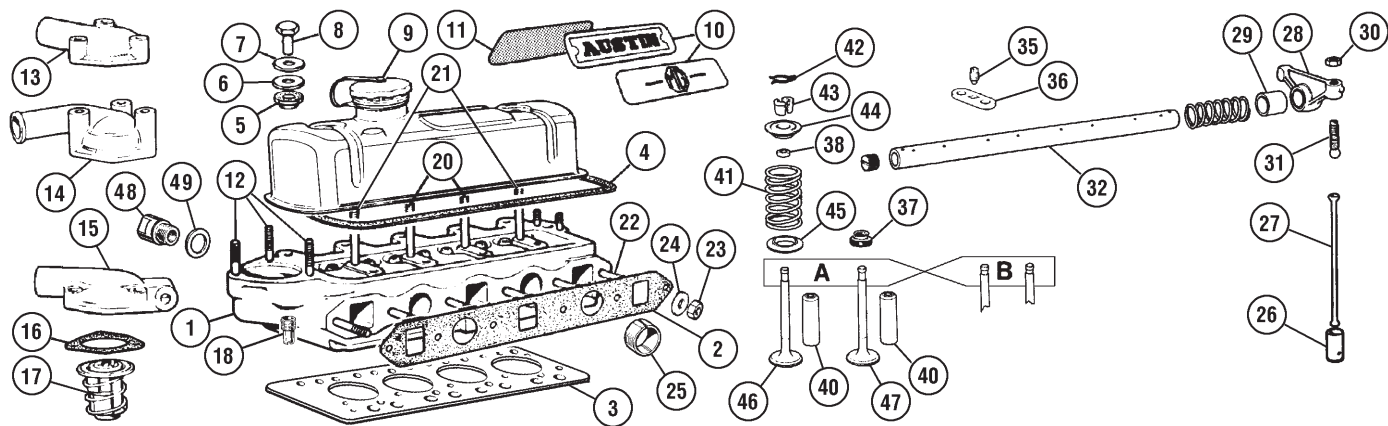

Competition Head Gasket (1275)	694-555	\$25.95
Competition Manifold Gasket (948 - 1275)	296-645	\$8.95

## 948 - 1098 - 1275 - Internal Engine

### Heavy Duty Engine Bolts and Stud Kits

Keep your engine together with these heavy duty, high tensile strength precision ground engine hardware kits which include special hardened washers and 12-point nuts. These premium quality fastener kits are perfect for the racer, road warrior, or anyone who wants added insurance against mechanical failure. The head stud kit includes 11 studs. While factory engines used 9, some engines

have been modified to use two more. Head studs and main cap studs are rated at 190,000 p.s.i., rod bolts at 180,000 p.s.i.

948, 1098, 1275 Head Stud Kit	322-998	\$208.95
1275 Main Bearing Cap Stud Kit	322-888	\$94.95
1275 Connecting Rod Bolt Kit	322-838	\$141.95

### Engine Locktab Sets

Save the hassle of ordering all the separate locktabs on your engine with these sets, which include all locktabs in the listings to the left marked ‡.

948-1098 Locktab Set	328-635	\$22.95
1275 Locktab Set	328-620	\$15.95

### Vernier Cam Sprocket Kit

If you are serious about making your engine run "just right", this is one upgrade you should be sure to install. This adjustable cam sprocket enables you to time your cam perfectly to factory specifications, or to change the factory cam timing on seriously modified engines. Kit includes adjustable cam sprocket, duplex crank sprocket, and duplex chain.

Sprocket Kit 460-385 \$269.95

### 1275 Aluminum Flywheel

Improved throttle response is a main benefit of using this high strength but light weight steel-faced alloy flywheel.

461-005 \$549.95

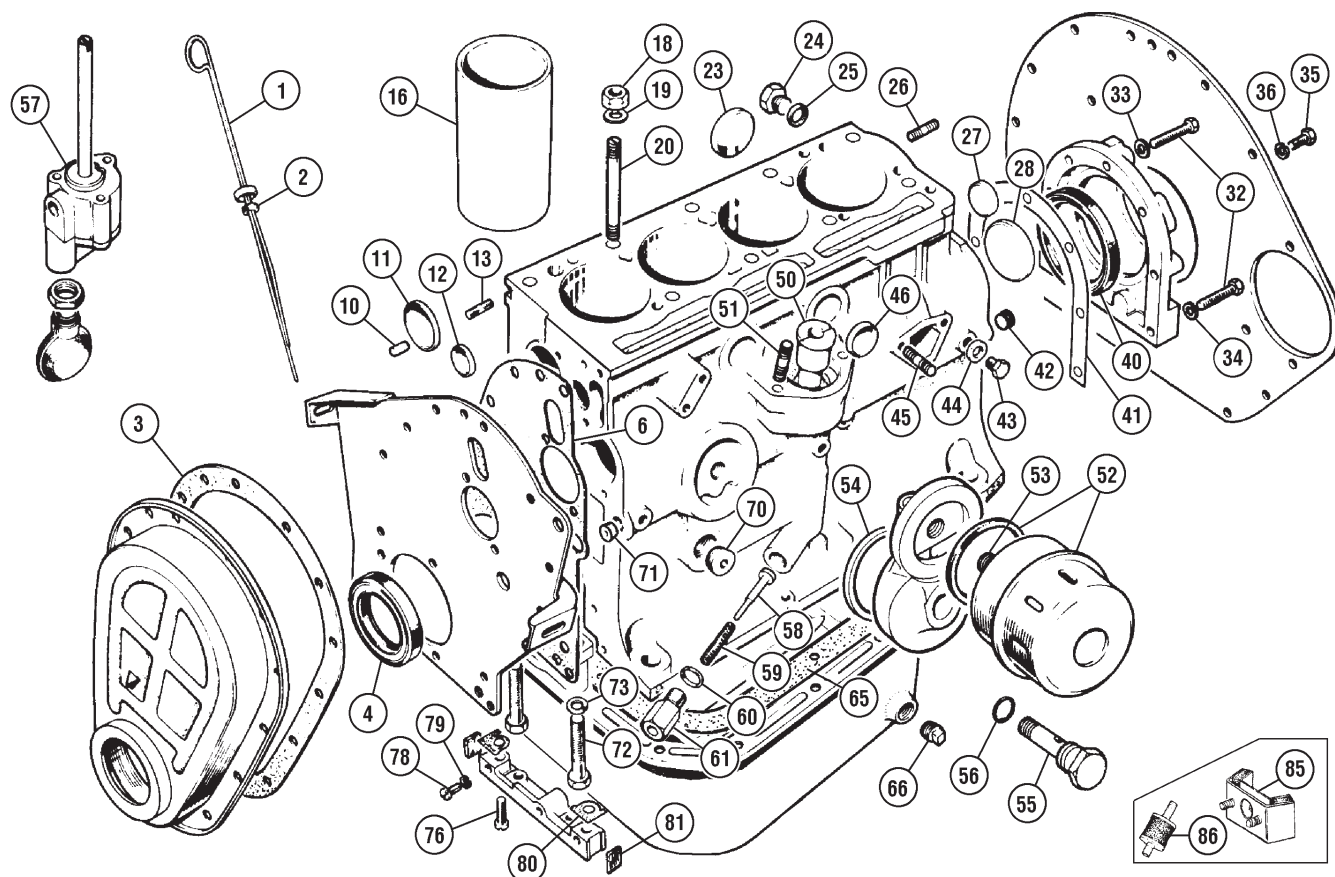

### Speedi-Sleeve

Timing Cover Seal. (use on illustration #4)

When a new seal cannot compensate for excessive damage, this ultra-thin sleeve provides a "new" sealable surface. Instructions and installation tool are included.

520-515 \$34.45

## Important Note:

Before ordering parts for your 1500 engine, make sure someone hasn't put a Spitfire 1500 engine in your Midget. While they are the same basic engines, there are some differences in fuel pumps, distributors, and some small parts which can cause confusion and frustration if the wrong parts are obtained. The real Midget engine numbers have a "FP" prefix, while the Spitfire engine numbers begin with "FM".

## Oberg Tilt Lift

It never fails. No matter what angle you hang an engine from its sling, it will be wrong. Unfortunately, most cars require the engine to be installed in an arc. This chore is hard enough with help, but it's nearly impossible without. Tilt Lift is a product which enables you to remove or install an engine alone. Tilt Lift allows easy adjustment of an engine's lift angle through a full 90 degrees of movement. Adjustment is easy, employing your 1/2" ratchet, and the 2,000 pound capacity – with a 3:1 safety load factor – is more than enough for any modern engine/tranny combination. A positive lock ensures the engine stays put. Tilt Lift's all steel construction ensures durability, and its small size (weighing only four pounds) makes it perfect for small work areas. The mounting cleats are adaptable to any engine. Reduce the risk of personal injury, or damage to your car with a Tilt Lift.

386-730 \$75.95

## "Ultra Slick" Engine Assembly Lube

The most critical time for dangerous wear during an engine's life is during initial start-up. Protect your rebuild (and all of those expensive parts) by using "Ultra Slick" during assembly of camshafts, lifters, engine bearings, timing components, valves & guides and rocker shaft assemblies. It's the best insurance available.

221-565 \$6.25

## "Hylomar HPF" Gasket Dressing and Sealer

Scraping off firmly stuck old gaskets is a thing of the past when you use Hylomar. Unlike most older types of gasket dressing, Hylomar will not ever harden, ensuring easy disassembly even years later. Hylomar holds gaskets in place during assembly and allows repositioning, while providing an instantly useable seal after assembly with proper torque. Hylomar is resistant to all automotive fluids, including gasoline, and is useable in temperatures from -60° to +600°F.

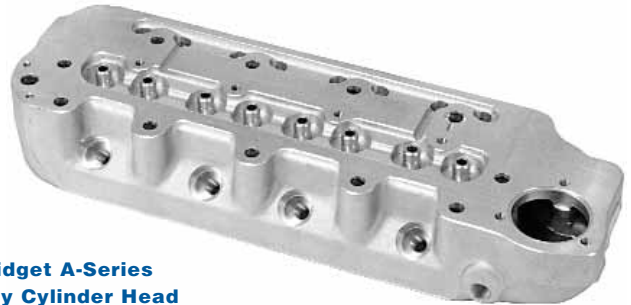

221-555 \$7.95

## Engine Paint

The right paint in the right color is the only kind to use on your freshly rebuilt engine. We invested a lot of time and effort to develop the correct shade of olive green for Sprigets. One can is enough to paint a properly prepared engine. (Black is not Moss "Classic Color")

Dark Olive Green 220-580 \$14.95  
Black (1972-'80) 220-575 \$8.95

## Spridget A-Series Alloy Cylinder Head

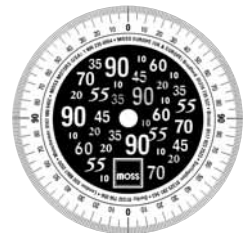

Use unleaded fuel with confidence, and increase your engine's efficiency and performance. These light-weight (9 lbs.) high strength aluminum alloy cylinder heads run cooler, allow higher compression ratios, and have a greater than 35% increase in flow rate over stock heads. Heads come with silicon-bronze valve guides and hardened valve seats. These require 1275 valves, springs, and retainers. 12mm spark plugs are required (use part # 451-890). All of which must be purchased separately. (Quantities required in parenthesis). These heads do not have air injection ports, and therefore may not be used for street use on cars originally fitted with air pumps.

Alloy Cylinder Head	451-875	\$1,049.95
Intake Valve (4)	423-190	\$8.95
Exhaust Valve (4)	423-335	\$14.95
Valve Spring Set (1)	423-470	\$22.95
Valve Collar (8)	460-556	\$10.95
Valve Cotter (16)	460-535	\$4.45
Spark Plug (4)	451-890	\$3.95

## Engine Timing Degree Wheel

To get the best performance from your engine, it's essential to ensure exact camshaft timing. Use our handy plastic degree wheel to check timing when installing a new camshaft.

384-910 \$6.90

## Cam Lube

The first few minutes of running are critical to the life of your new camshaft and lifters. We simply cannot overstate the importance of proper lubrication during this period. To make sure your new cam lasts a long time, use our cam lube when installing a new camshaft or lifters.

221-570 \$10.95

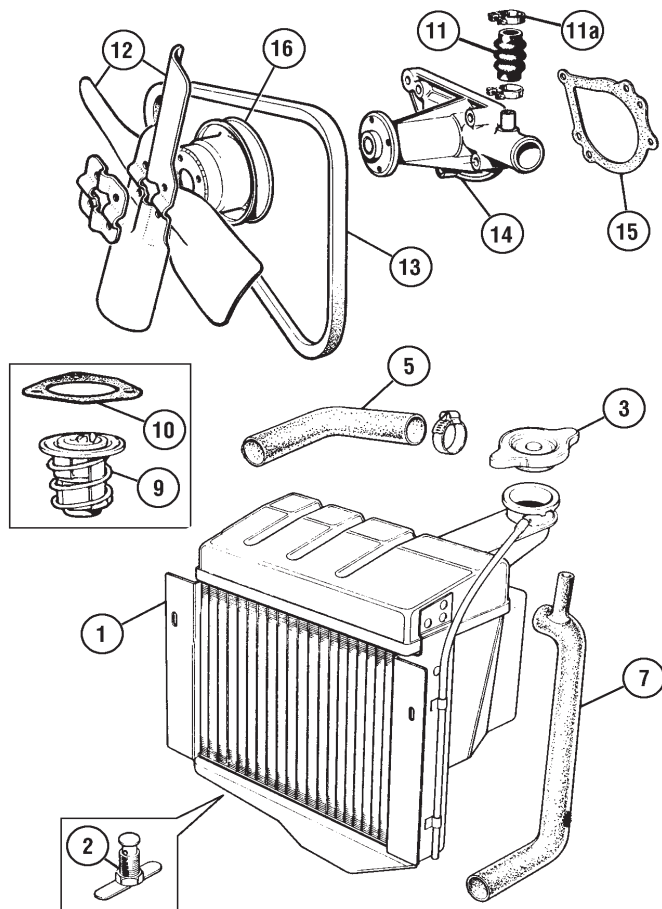

## Magnetic Drain Plug

Safeguard your engine! Our magnetic oil drain plug helps protect your engine by collecting metallic particles before they get fed through your oil system. Fits your gearbox, too!

948-1275 328-282 \$4.95  
Midget 1500 328-356 \$3.25

# Cooling System

11a	262-200	\$0.90	CLAMP		2

Check the bypass hose between the cylinder head and the water pump frequently. It is easy to mistake a leaky bypass for a faulty water pump as the leak in both cases will run down the side of the pump. Replace the bypass hose when replacing head gaskets or water pump.

12	434-550	\$20.95	FAN BLADE, sold individually		2

15	296-620	\$0.95	GASKET, water pump		1
16	NA		PULLEY, water pump		1

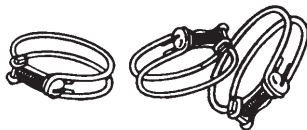

Lining up the various parts that use the radiator mounting bolts as support is easy when a tapered line-up tool is placed through the top holes to support one side while the opposite side is bolted. Install the top bolts first. Do not tighten any of the bolts until all four bolts are in place. The top bolts can be started using a deep well socket on a long extension with a nut in the socket to keep the bolt to the end of the socket. Most Spridgets have the two lower bolts missing. Get rid of a rattle or two by replacing them.

326-460	2 13/32 to 2 5/8"	\$2.35

## Water Wetter

Water Wetter is a wetting agent which helps coolant "bond" to the surfaces inside your cooling and heating system, increasing heat transfer efficiency. While your car can run up to 15° F cooler, your heater will run hotter! Highly recommended for all climates.

\*Note: Parts marked \* for 1975 are for unmodified cars only. 1975 Midgets were subject to a warranty modification to the cooling system which involved changing the thermostat housing, expansion tank, hoses, and inserting a T-fitting in the large hose from the radiator to the thermostat housing to allow fitment of a thermo- vac switch. Therefore, details above for 1975 will not match all 1975 cars. **Parts for the modification are not available.**

## 1975 Cooling System Modifications

The following is an extract from the Austin/ MG Technical Service Bulletin 75-A-6 dated August, 1975. **None of the specified parts are currently available.**

Where instance of severe overheating occurs on 1975 MG Midgets, the following modifications should be carried out.

1. Remove and discard the front number plate bracket and plinth assembly. Relocate and mount the front number plate to the center of the bumper, using self-tapping screws.
2. Reposition both horn assemblies by simply bending the mounting bracket upwards and through 90 degrees.

3. Install thermo-vac switch, Part No. C-37430 with 'T' sleeve adaptor, Part no. 158308 in the top radiator hose as shown.

NOTE:- (Remove approximately 1 1/4" from the existing hose to accommodate the 'T' sleeve.)

4. Remove the decell valve from the carburettor and replace with externally vented valve, Part No. AAU-2346.

5. Remove and discard the existing expansion tank and replace with metal type, Part No. URP-1148, using the existing bolts and spacers and new brackets supplied, Part No. CHA-582.

NOTE:- The pressure cap supplied with the metal tank has a double seal, and therefore is not interchangeable with the original cap which should be discarded.

6. Install bracket, Part No. CHA-585 and no-loss bottle, Part No. BHA-5239, utilizing the right-hand upper shock absorber support plate bolts.

7. Remove and discard the thermostat housing and install modified housing, Part No. CHA-595.

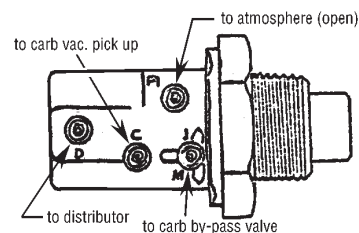

8. Connect the vacuum and water hoses as shown in overall illustration.

NOTE:- Vacuum hose will have to be cut to length.

9. Pressure test system for any leaks.

10. Replace temperature gauge assembly, Part No. AAU-2641.

NOTE:- There are many reasons why an engine will overheat, consequently it is essential to establish that no other problem exists, such as cylinder head gaskets, loose cylinder head bolts, incorrect ignition timing or maladjusted fan belt, etc., prior to carrying out the foregoing modifications.

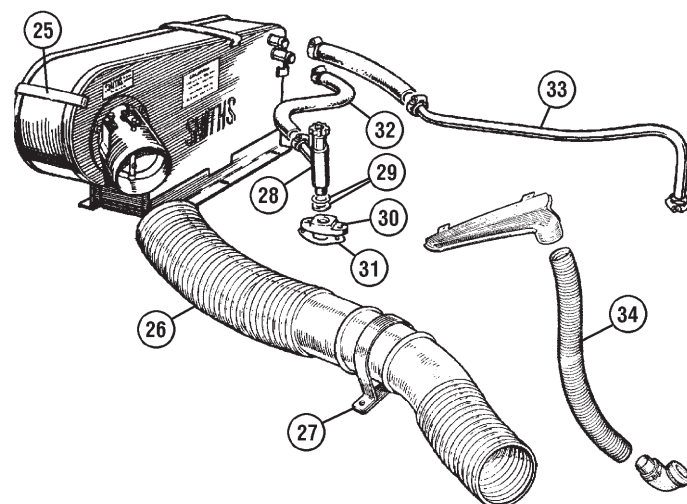

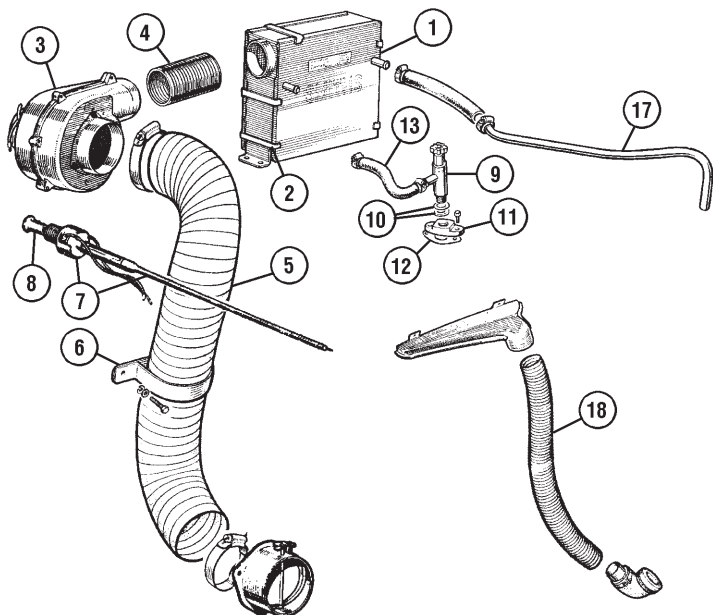

**Thermostatic Vacuum Switch**

## Hayden Electric Fan

Easy to install, these fans may be set up to run in either "pusher" (in front of the radiator) or "puller" (behind the radiator) configuration. The preset temperature control will turn the fan on at 185°F and off at 170°F.  
231-678 10" Cooling Fan Kit \$129.95

The "water faucet" heater valve is one of the charming anachronisms that makes a Spridget a Spridget. It's not so charming when it leaks. Part of your regular service routine should include tightening the mounting nuts. If the tap is leaking between the body and the mounting flange, a turn on the tap body should fix it. If not, replacement of the flange and washer will cure the annoyance for good.

21	444-400	\$5.65	CLAMP, tailpipe	transverse muffler #13	1

\* This pipe will be cut for shipping, or be shipped by truck, freight collect.

The exhaust system will last longer and won't rattle when installed with the proper hangers and hardware. The front brackets are especially important to the longevity of the sealing ring. Although not legal in all cases, it is possible to use the single and dual muffler systems interchangeably on 1098/1275 cars.

46	444-400	\$5.65	CLAMP, tailpipe		1

\* 1-piece pipe & muffler assemblies must be cut for shipping, or be shipped by truck, freight collect. Your local welding shop can rejoin these pieces. The 2-piece assembly slips together.

## Identifying the BMC Engine

The BMC "A" series engine is, like its larger brother, the "B" series fitted to the MGA and MGB, of venerable lineage. Adapted from the Austin A35 it appeared in the Austin-Healey Sprite as the "948", then went through minor revisions as the "1098". A major revision, the "1275", the strongest engine of the series, appeared in late 1966. The "A" series engines have served as the basis for hundreds of modified street Spridgets and full-bore racers.

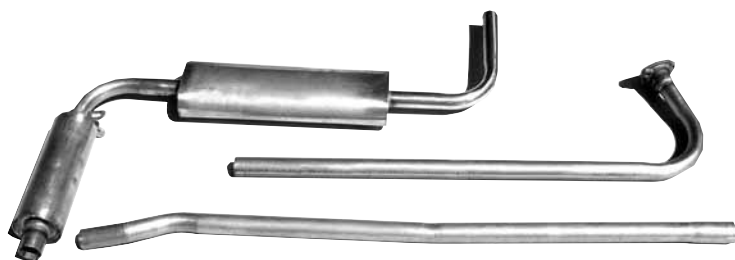

A "950" was cast in the left side of the "948" block. The "1100" (1098) and "1275" had metal tags riveted to the left side of the block just behind the bearer plate. All of these engines had an aluminum tag riveted to the top of the block on the right front. The first number designates the series: 9 = 948cc; 10 = 1098cc; 12 = 1275cc. If the tags have been removed, measuring the piston bore and main cap journals will reveal its origination. The "948" came with a stamped steel backplate and the 1275 is easily identified by its lack of tappet covers.

948	9C, 9CG
1098	10CG 1 7/8" main bearings 10CC 2" main bearings
1275	12CC, 12CD, 12CE, 12CF, 12CG 12CH, 12CJ, 12CK, 12V

TOLL-FREE ORDERS

Late 1275 system illustrated.

### Stainless Steel Exhaust System

Guaranteed to be the last exhaust system you'll need for your car. Constructed entirely of top quality stainless steel with proper fit and great sound. Includes everything you need from the manifold flange back except clamps and hangers. Guaranteed for life against corrosion.

Sprite/Midget 948, 1098 CG	452-000	\$205.95
Sprite/Midget 1098 CC	452-010	\$205.95
Sprite/Midget early 1275 (approx. '67 w/flared/clamped headpipe)	452-010	\$205.95
Sprite/Midget mid 1275 ('68-'73 w/flanged headpipe & straight muffler)	452-015	\$205.95
Midget late 1275 ('74 w/flanged headpipe & transverse muffler)	452-025	\$285.95
Midget 1500	452-030	\$292.95

### Exhaust Headers

Hand built to obtain maximum power, full bore bends and smooth pipe junctions mark these quality headers.

948	452-060	\$295.95
1098/1275(illus.)	452-065	\$328.95
1500	452-070	\$340.95

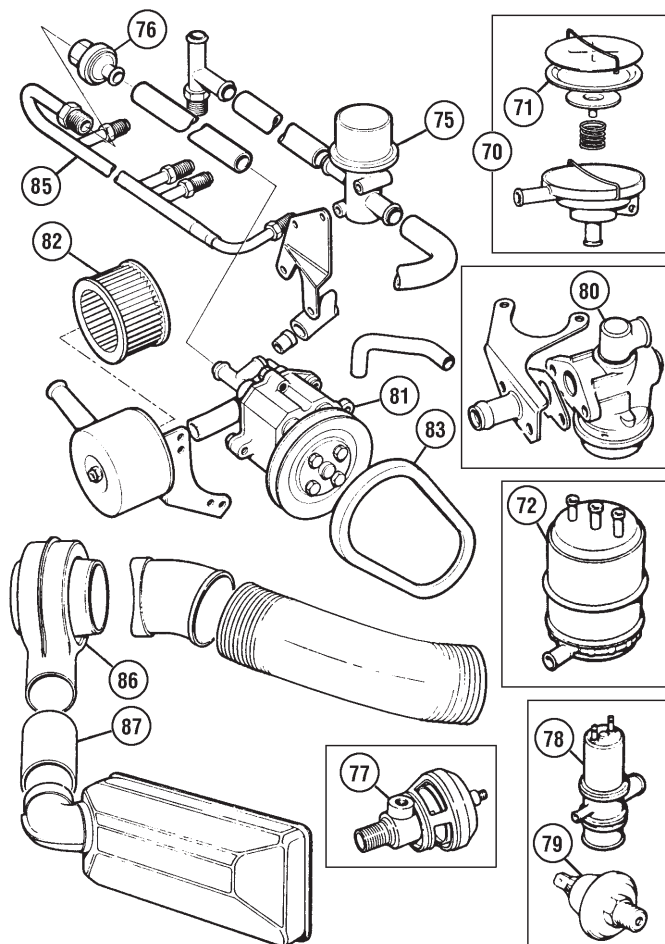

### Muffler & Tailpipe Sealer

A "must have" to make a positive seal on exhaust pipe slip-joints, this sealer is also useful for temporary exhaust system leak repair.

221-545 \$2.95

### SU Tool Kit

An assortment of handy tools for the home mechanic. Instructions included. Suitable for all cars with SU carbs.

**386-300 \$23.95**

### Carburetor Synchronizer

Used to synchronize airflow between multiple carbs, this is an indispensable tool for the serious home mechanic.

**386-200 \$32.95**

### SU Jet Wrench

Mixture adjustments on SU carbs (except HIF type) are much easier with the proper tool. 5/16 Whitworth size for original carbs. & replacement H-type, 17mm for new replacement HS type carbs.

**386-400 Jet Wrench, 5/16 W \$2.95**

**386-401 Jet Wrench, 17mm \$8.15**

### SU Jet Centering Tool

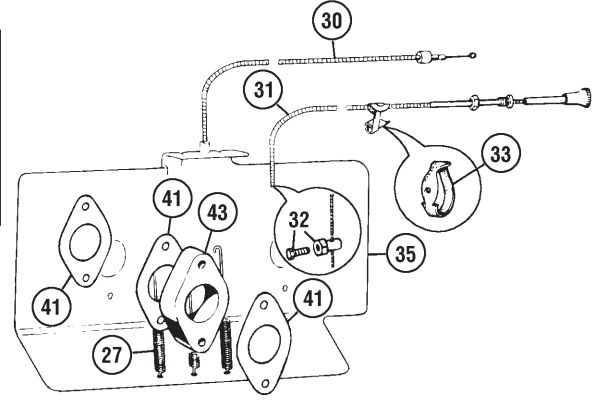

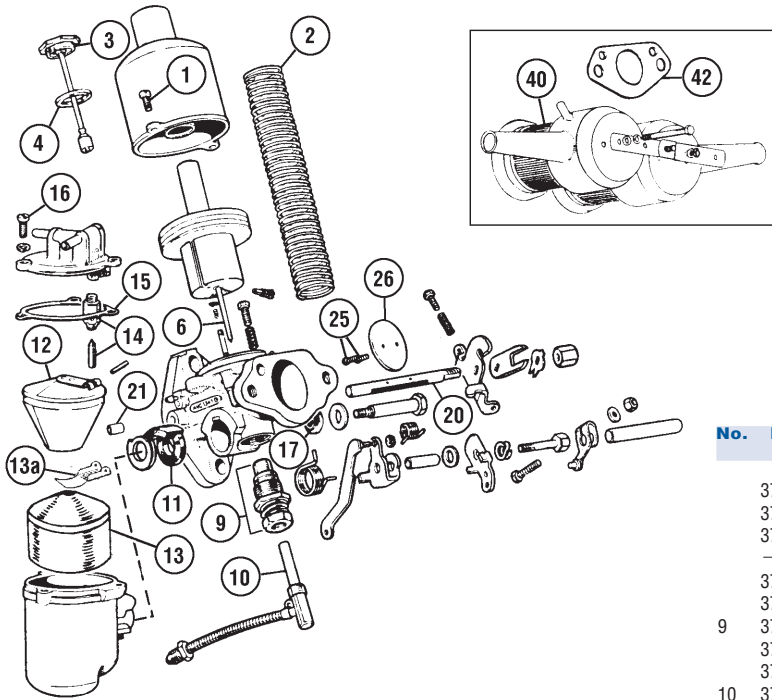

Jet centering is critical on older fixed needle SU carbs. This simple tool makes it a snap.

**386-500 \$21.95**

### Carburetor Dashpot Oil

Finally take all the guesswork out of what type of oil to use in your dashpots. Specially formulated for all SU and Zenith-Stromberg carburetors, this oil ensures the correct piston movement so critical for correct fuel mixture and optimum performance. You don't have to use engine oil any more. 125ml. supply should last a long time.

## 1500 Manual Choke Conversion Kit

Gain all the advantages of manually controlled choke, while leaving your car's original appearance intact by using this easy to install kit. Designed in England by Zenith-Stromberg engineers, this kit includes all necessary mounting hardware and detailed instructions. 386-325 \$124.95

Amendments to the Clean Air Act make it illegal for anyone to change or alter the emission control system of any automobile in the United States except for cars used exclusively for off-road use.

## Zenith-Stromberg Mixture Adjustment Tool

An essential item for owners of 1975 or later cars with a single Zenith-Stromberg carburetor. 386-310 \$9.85

## Carburetor Dashpot Oil

Finally take all the guesswork out of what type of oil to use in your dashpots. Specially formulated for all SU and Zenith-Stromberg carburetors, this oil ensures the correct piston movement so critical for correct fuel mixture and optimum performance. You don't have to use engine oil any more. 125ml. supply should last a long time.

220-225 \$8.95

## Weber Downdraft Conversions

The ideal road use conversion, this Weber downdraft set-up gives improved full-throttle performance without sacrificing fuel economy or driveability. Simple to install, no modifications are required to your existing linkage. Works with either stock cast iron exhaust manifold or tubular headers. Kit includes Weber carburetor, manifold, air filter and linkage tailored for your car.

1275 Sprite/Midget	222-275	\$579.95
Midget 1500 (automatic water choke)	222-255	\$579.95
Midget 1500 (automatic electric choke)	222-256	\$579.95
Midget 1500 (manual choke)	222-257	\$579.95
Rebuild Kit (for all of above)	222-266	\$74.95

\*Amendments to the Clean Air Act make it illegal for anyone to change or alter the emission control system of any automobile in the United States except cars used exclusively for off-road use.

Due to the worldwide shortage of Weber carburetors, please call for availability. Prices may fluctuate from those published.

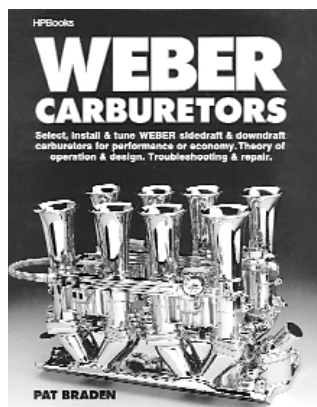

## Weber Sidedraft Carburetor Conversion

For serious performance seekers, the Weber sidedraft conversion has been a popular option since the early '60s. High performance DCOE carburetor, combined with a precision cast alloy manifold will help you extract maximum power from your modified engine. Although installation is straightforward enough, tuning the carburetor to the particular requirements of your engine is best done by a mechanic with experience in tuning Webers. Air filters are sold separately.

Midget 1500 Side-Draft Carburetor, Kit	222-480	\$799.95
Sprite/Midget 948/1098 Side-Draft Carburetor Kit	222-440	\$799.95
Sprite/Midget 1275 Side-Draft Carburetor Kit	222-450	\$799.95
Air Filter	222-240	\$84.95

Amendments to the Clean Air Act make it illegal for anyone to change or alter the emission control system of any automobile in the United States except cars used exclusively for off-road use.

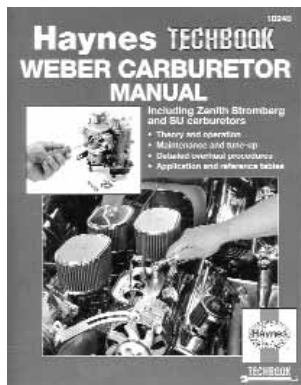

## Weber Carburetors

by Pat Braden

Learn how to select and tune weber sidedraft and downdraft carburetors for performance and economy. Also covered in detail is the design and theory of operation, as well as troubleshooting and repair. Softbound, 8" x 10", 300 pages, hundreds of illustrations.

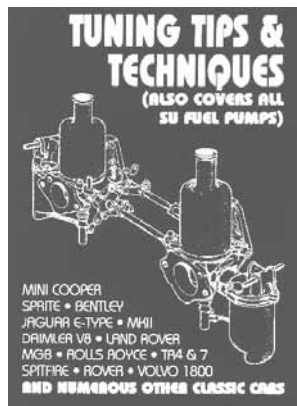

213-430 \$20.95

## Carburetor Manual

SU, Zenith-Stromberg, and Weber carburetors are all covered in complete detail in this thoroughly illustrated thick paperback.

211-430 \$18.95

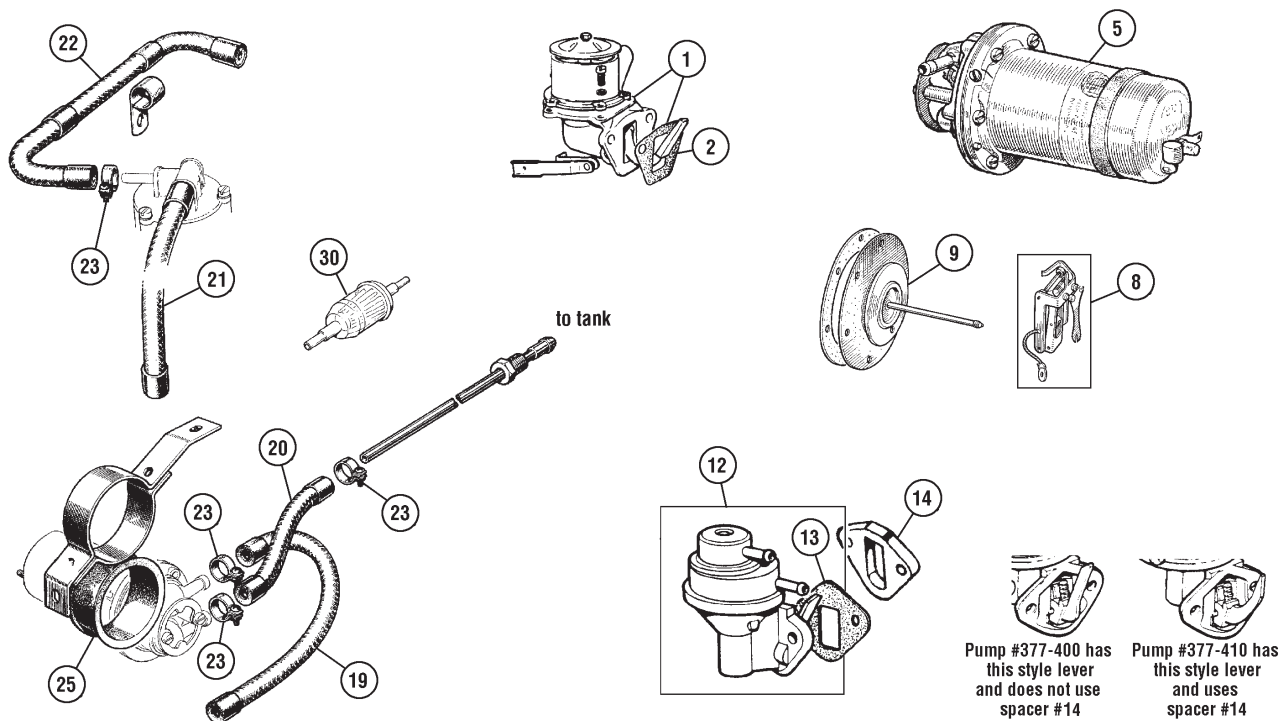

## SU Tuning Tips & Techniques

by G. R. Wade

If you only buy one book on SU carbs, this is a good one. Combining years of collected wisdom and factory published information, it'll help you solve all the standard SU carb problems.

211-345 \$29.95

## SU Solid State Fuel Pump

Electric fuel pumps with modern reliable solid state switching which eliminates the hassles of breaker points (but retains the traditional ticking sound). Now you can have the vintage appearance with the peace of mind only an electronic fuel pump can offer.

1098-1275 positive ground	377-295	\$148.95
1098-1275 negative ground	377-285	\$148.95

## Solid State Electric Fuel Pump

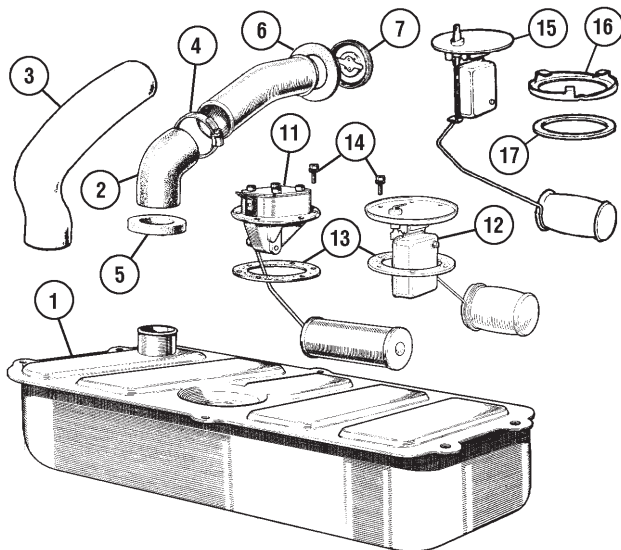

Solid state electronic fuel pumps can be used in conjunction with, or in place of, your original pump. These pumps will push or pull fuel through your original pump, or may be put in-line and used as a backup (when switched separately). May be used on positive and negative ground cars.

## Gas Tank Care

### Step 1: Bio-Degradable Cleaner

This is an industrial strength gas tank cleaner that allows you to clean out your car's gas tank yourself. We recommend using this cleaner in conjunction with our etching liquid when planning to seal your tank.

220-620 \$35.45 Cleaner (1 gallon)

### Step 2: Fuel Tank Etching Liquid

Use this bio-degradable etcher as a prep for our slushing compound to give maximum adhesion of the sealer. Our cleaner should be used first to remove oil and grime. 16 oz.

220-630 \$16.50 Etching Liquid

### Step 3: Tank Slushing Compound

This is what the factory should have used! This amazing fluid puts a protective film on the entire inside surface of your fuel tank to prevent rust. Save yourself from having to buy an expensive fuel tank later on. Tanks should be cleaned with 220-620, then etched with 220-630 first. This compound is formulated to resist the alcohols found in gasoline.

220-450 \$35.95 Slushing Compound

SPRITE-MIDGET

## ReLead & Stor-N-Start

Stor-N-Start is a gasoline additive which prevents harmful gum and resin deposits from forming in fuel lines and carburetors. Use one ounce per five gallons of fuel before storing your car, and it will start right up—even after extended periods. ReLead replaces the valve lubricating qualities of lead formerly used in gas. Unless your cylinder head has been converted to run on unleaded, you need ReLead.

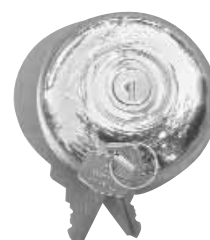

220-375 Stor-N-Start \$6.50  
220-390 ReLead \$10.95

## "Aston" Locking Gas Cap

Clever, quick release gas cap looks like those fitted to many historic sports and race cars. But looks can be deceiving, because under the quick release flip cap is a neat locking gas cap. The caps themselves are theft proof, and they secure your fuel at the same time. Cast aluminum quick release cap is polished to a high luster, and installation is as easy as installing a regular gas cap. Fits Sprites and Midgets through 1969.

407-125 \$159.95

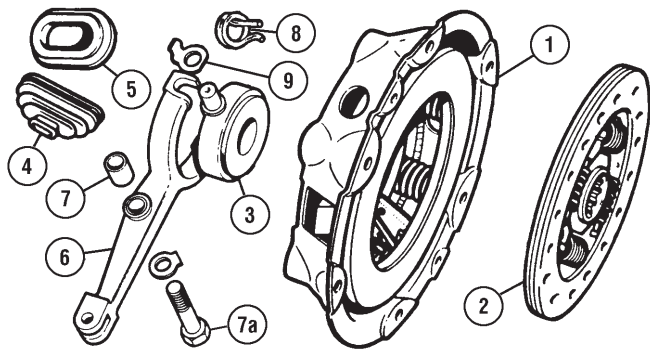

## Locking Gas Cap

Our chrome locking fuel filler caps are similar to originals, but with an important extra feature. With fuel prices as high as they are, a locking gas cap is inexpensive insurance against thieves. Supplied complete with two keys. Fits Sprites and Midgets from 1959 through 1969.

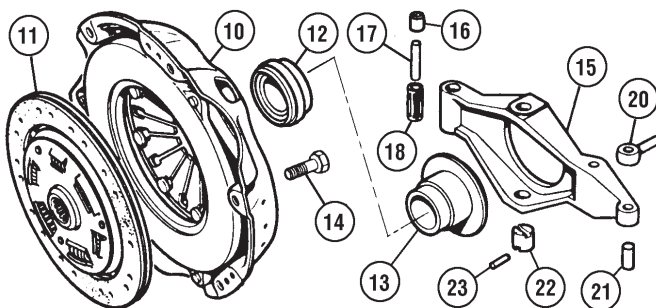

202-760 \$20.95

Most parts for the smooth case transmissions fitted to the Sprite MkII and Midget MkI have been unavailable for many years.

Synchromes for these transmissions are "shrunk-on" to the gears and must be machined to fit; an expensive operation requiring an experienced machinist.

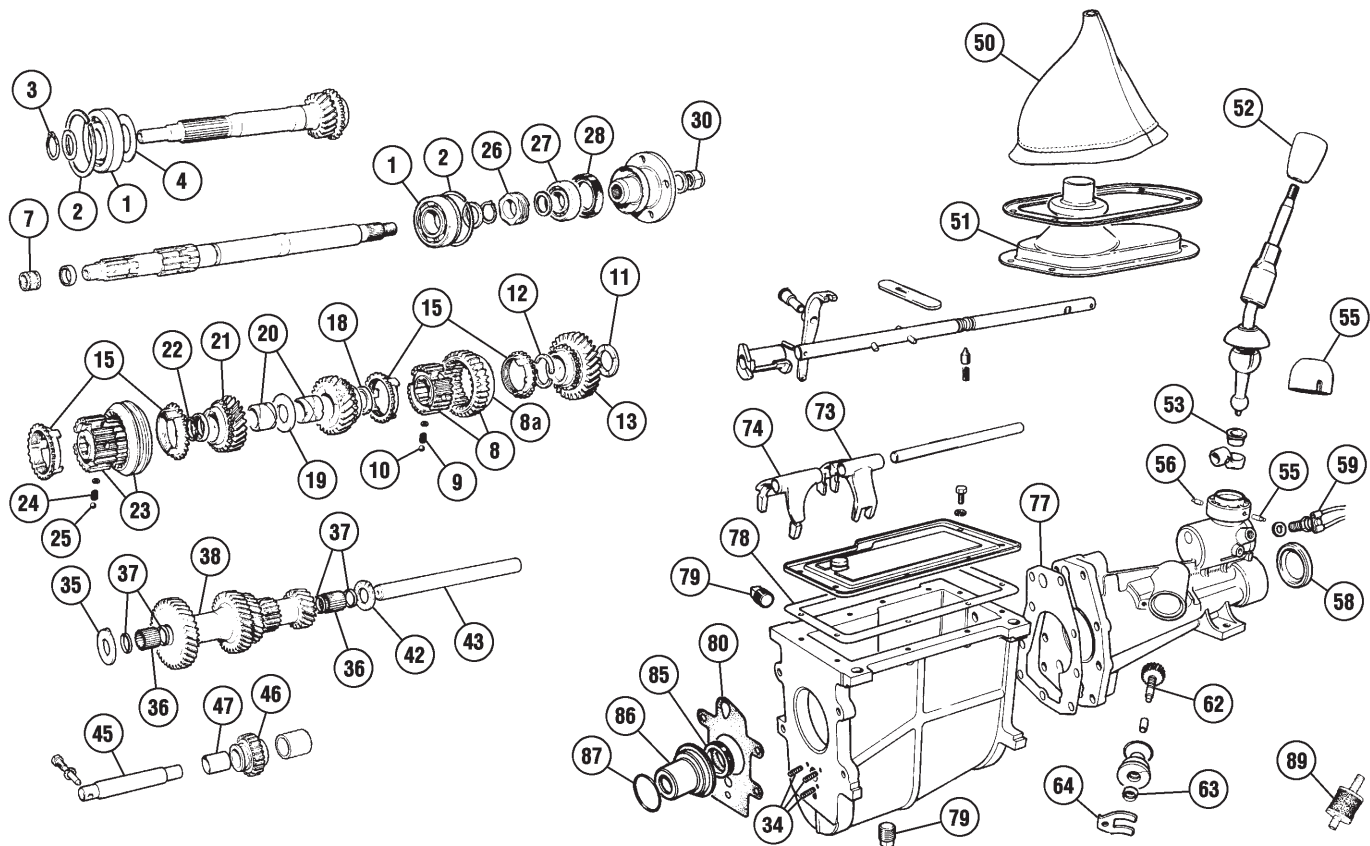

Since the ribcase transmissions are less complex and replacement parts are readily available, we recommend the direct replacement of a troublesome smooth case with the ribcase. An added advantage is the more desirable gear ratios fitted to the late units. (The clutch release lever for the ribcase gearbox, #190-955, must be used. However, you must use the release bearing appropriate for the engine installed.)

Eliminating excess free play will do wonders for your clutch action. Since for all practical purposes the clutch is not adjustable, each part must be in top condition. New clevis pins and new slave cylinder push rod are recommended.

Slave cylinder rods should not have sections welded to them to make them longer. This is an erroneous repair which is done to avoid installing a new release bearing. Occasionally a rod from another car is substituted.

## 1500 Gearbox Notes

To extend gearbox life, British Leyland designed a modified gear set consisting of a new 1st/2nd synchro hub assembly, laygear, and reverse idler gear. Components with the application "A" above were originally fitted up to gearbox #241363, gears above with the application "B" were originally fitted from gearbox #241364. Over the years, many early gearboxes were fitted with the later gears. To avoid confusion, please count your reverse gear teeth before ordering.

905-482	Midget 1971-'76 - with 46mm enamelled emblem	\$96.95

## Classic Steering Wheel

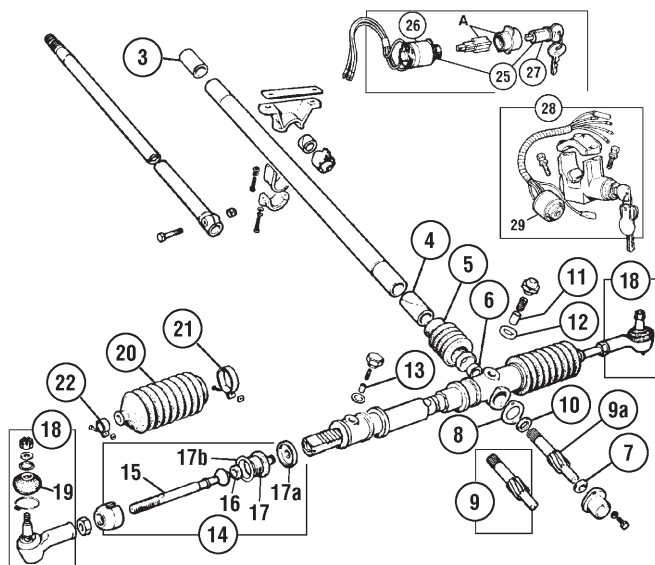

A slightly thicker rim than our other classic wooden wheels for a more positive grip (approx. 28mm or 1.1" in diameter). It also features non-glare matte finish spokes and rich solid mahogany wood. This will fit any of our classic steering wheel adaptor hubs.

489-090 \$219.95

\*U.S.-spec column mounted ignition switches are locking-type. Ignition switch #141-220 is similar to the original, but has Lucar spade terminals in place of the wires found on the original switches. To use this replacement switch, three wires approximately 14" long must be attached to the switch with female Lucar connectors (#161-520). To connect the other ends of these wires to your harness, use wire tips, #162-200, and connectors, #162-000. Parts marked "A" in the illustration are no longer available and must be re-used from your old switch assembly.

The most common causes of steering shake are wheel imbalance, tire belt separation, bad shock absorbers and worn wheel bearings. Harder to find problems arise from loose steering rack mounts and out-of-round brake rotors. The most elusive shake is caused by wear in the steering rack itself. This is an unfamiliar problem just coming into its own, due to the age of the affected cars.

The problem manifests itself in localized intermittent shaking in the steering wheel, and is difficult to sort out as most suspension problems end up being felt through the steering wheel. A clue is afforded by determining which parts of the car are shaking as well as the steering wheel. If the cowl or fenders are shaking, the problem lies with suspension parts, not the rack.

There is much you can do to eliminate shake and shimmy not connected with the rack. See that everything is mounted properly and securely as your safety depends on your steering system being in first class operating condition.

### Competition Front Coil Springs

For serious competition, we recommend this 400 lbs. spring rate front coil spring. Lowers standard ride height by one inch. Fits chrome bumper cars. Available on special order only. Please allow 6-8 weeks for delivery. **264-615 \$69.95 ea.**

### Lowered Front Coil Springs

For chrome bumpered cars, this spring slightly lowers the ride height while providing a useful increase in spring rate to 340 lbs./in.

**264-605 \$77.95 ea.**

### Front suspension Lowering Kit

This kit contains special spacers which install between the wishbone/spring pan and the spring seat to lower your front suspension one half inch. Works with all springs. Kit includes spacers and bolts for both sides.

**264-665 \$23.95**

### Nylatron Upper Trunnion Bushes

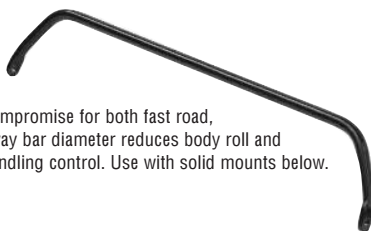

Nylatron bushings firmly locate your front suspension and eliminate unnecessary movement. Standard camber trunnion bushings are a direct replacement for your original bushings. The negative camber bushings are designed primarily for competition purposes and give improved steering and braking control. Sold individually, 4 required per car.

**Standard Camber Bushing 264-585 \$12.95**  
**Negative Camber Bushing 264-595 \$14.95**

### 3/4" Anti Sway Bar

The 3/4" anti sway bar is an excellent compromise for both fast road, and competition use. Increased front sway bar diameter reduces body roll and understeer which in turn gives better handling control. Use with solid mounts below.

**264-555 \$170.95**

### Solid Sway Bar Mounts

Machined aluminum mounts may be employed for road use, but were primarily designed for competition purposes. Some increase in road noise can be expected. Use with 3/4" bars. Sold as a pair.

**263-435 \$80.95**

## Front Suspension

SPRITE-MIDGET

### Alignment Gauge

Setting toe-in yourself used to be a big giant hassle, but one which needs doing. Every time you work on your car's front end, the toe should be checked and adjusted. With this inexpensive but accurate gauge, simply take a measurement at the back of the front tires, measure at the front, and read the difference on the large scale. Adjust your tie-rods by the indicated amount, and check by re-measuring. It's that easy! This handy alignment gauge will pay for itself the first time you use it.

**387-085 \$42.95**

### Front Suspension Advice

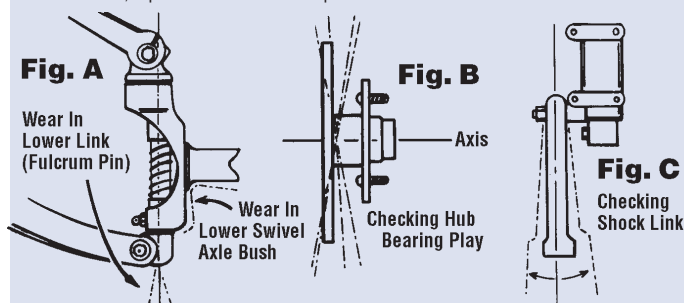

The front suspension will give good service if kept clean and lubricated. Few Spridgets receive this attention, and inspection is impossible without a thorough cleaning. Front end condition should be considered before purchasing a car.

There should be no play in the steering or hub assemblies. Inspect the tie rod ends, hubs and uprights. The front end must be raised. Allow the suspension to hang by placing jack stands on the frame next to the engine or under the rocker panels. Have someone turn the steering wheel from lock to lock while you observe the tie rod ends, which must not have any free play.

Lower king pin bushes and fulcrum pin and wishbone attachments wear out. Grasp the wheel at top and bottom and rock back and forth. (Figure A) Observe any clearance at the king pin and fulcrum pin. If the wheel rocks but there is no "gap" at the fulcrum pin, the hub bearings must be inspected. (Figure B)

All Spridgets eventually need front end rebuild. The use of new parts is best, as the fulcrum pin often fuses to the wishbone. Few of these parts are reusable.

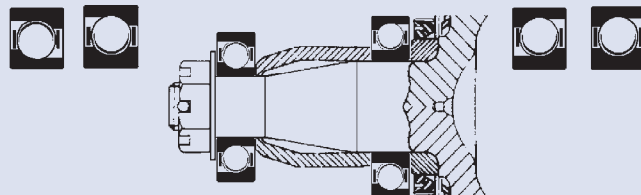

Severe wear on the lever link is a problem with the single arm shocks. Check by removing the upper link and wiggling the arm back and forth (Figure C). If fluid leaks from the the shaft seals, replace the shocks and top bushes.

"Stiff steering" can be caused by hardened grease in the lower king pin bushes.

Temporary improvement can be made by removing the grease fittings and applying heat to melt out hardened grease. Work the steering from lock to lock while heating. When the joints seem "free", install new fittings and pump grease through the bush. Grease a second time after the joints are cold.

Replacement of the drive shaft is difficult and frustrating as you cannot reach nor see down the tunnel to guide the front flange. Support the front joint with a couple of pieces of cardboard or styrofoam placed across the coupling to hold the flange relatively straight. The spine is then easily mated to the transmission.

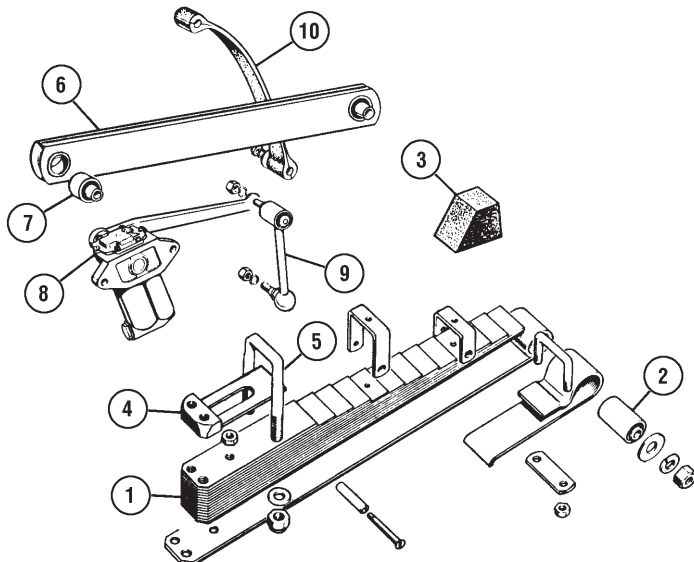

### Front Wheel Bearings

Front wheel bearings are thrust bearings; if installed backwards, the hubs may come loose from the axles. Bearings marked "thrust" on the outer race must have this marking face the bearing spacer. Bearings marked "thrust" on the inner races must be installed with the "thrust" marking away from the bearing spacer. Bearings with no "thrust" markings must be installed with the thicker edge of the outer races facing inwards toward the bearing spacer. The illustration above shows the correct orientation of different available bearings. Note the orientation of the thrust (thick) and non-thrust (thin) sides of the bearing races.

### Lowered Rear Leaf Springs

Lowered springs are preferred to blocks and long U-bolts because they provide better location of the rear axle. Our 1" lowered springs are perfectly suited to fast road use. The 2" springs are appropriate for the track. Fit chrome-bumpered cars only from 1964-'74.

1964-'74 Rear Leaf Spring, 1" Lowered	264-685	\$146.95
1964-'74 Rear Leaf Spring, 2" Lowered	264-705	\$202.95

### Rear Tube Shock Conversion Kit

Fits 1964 to 1974 chrome bumper models. These kits contain the Spax adjustable gas filled shocks (adjustable from the outside),

with new lower spring plates that incorporate an angled mounting flange. Installation is easy, and instructions are included.

264-675	\$491.95
---------	----------

### Early Type Jack Bag

Styled like the original factory-supplied jack bag made from heavy duty jute-backed vinyl. Complete with straps and buckles. Keeps the jack from banging around, a must for the restored car.

386-930	\$26.95

27	328-500	\$0.95	GREASE NIPPLE		1

## Cross-Drilled Brake Rotors

Stop! Cross drilled rotors cool better for reduced brake fade and scrub off water faster in the wet. Special rotational hole pattern. For disc wheel cars. Sold as pairs only.

586-600 \$198.95

## Anti-squeal Strips

Sometimes disc brakes just won't shut up. These foil lined self-adhesive strips stick onto the back of the brake pads to dampen the vibrations which cause brake squeal. Set of four. (Product may vary from photo.) 583-805 \$5.45

moSS

MOSS MOTORS, LTD. 1-800-667-7872  
TOLL-FREE ORDERS

## Brake Pipe Sets

Moss brake pipe sets are made in England of high-strength corrosion resistant copper-nickel alloy tubing. Pipes are supplied coiled, but are much easier to bend smoothly and correctly than steel. All pipes come with end fittings and flares, and are individually coded to the instruction sheet so there is no doubt as to where they fit on your car. Note: these pipes have modern universal standard flares which are totally compatible with the original fittings.

184-008	\$114.95	BRAKE PIPE SET	Bugeye	1
184-018	\$111.95	BRAKE PIPE SET	Sprite MkII, Midget MkI (drum brakes)	1
184-028	\$111.95	BRAKE PIPE SET	1963-'67 (disc brakes)	1
184-038	\$114.95	BRAKE PIPE SET	1968-1974	1
184-048	\$114.95	BRAKE PIPE SET	Midget 1500	1

## Brake Pipe Bending Tools

Smooth bends on small diameter tubing such as brake lines are easily made with either of these tools. The small tool bends tubing up to 1/4" diameter. The large tool for repeated heavy use—bends tubing up to 3/8" diameter to a minimum radius of 3/4".

Large	385-895	\$89.95
Small	385-885	\$34.65

## Braided Stainless Steel/Teflon Brake Hose Sets

These competition-inspired brake hose sets meet all DOT safety standards and are street legal in all 50 states. Each set includes all brake hoses used on your car, with any required retaining nuts and/or copper sealing washers.

182-198	Sprite-Midget (with front drum brakes)	\$96.95
182-248	Sprite-Midget (with front disc brakes)	\$96.95

## Vizibleed Hydraulic Bleeder

This clever tool makes brake and clutch bleeding a one person job. Place the hose over a bleeder screw, put the special check valve in an empty container, open the bleed screw and start pumping the pedal. When clean, air bubble free fluid can be seen in the hose, you're done!

386-885 \$17.95

## Brake Fluids

Choose the brake fluid your car needs. Genuine Lockheed Brake Fluid is compatible with all British brake systems. Silicone fluid won't harm paint, and doesn't absorb moisture, as do conventional fluids. (If changing from one type to the other, flush your brake system thoroughly with the "new" type of brake fluid.)

**Lockheed Brake Fluid 500 ml.**  
220-400 \$5.10

**Silicone Brake Fluid 1 qt.**  
220-410 \$26.95

**Castrol Brake Fluid, 12 oz.**  
220-455 \$5.50

SPRITE-MIDGET

## Brake Lube Sachet

This grease is specially formulated for aiding the assembly of natural and artificial rubber brake components. Recommended for use with master cylinder, wheel cylinder and slave cylinder seals. This is the only safe product to use for this purpose, especially if your rebuilt cylinder will not be installed and used immediately after assembly.

220-440 \$2.10

## Mityvac

"A useful little sucker." Bleeding hydraulic systems has always been problematic. Wouldn't it be nice if you could use a vacuum to draw fluid through the system, or perhaps generate just a wee bit of air pressure at the master cylinder to force fluid through empty lines? Mityvac is the answer. This clever hand vacuum/pressure pump comes with in depth instructions for not only brake bleeding but also a wealth of other ideas of how Mityvac Kit can help you do the job, quickly.

386-215 \$39.95

## Hose Clamp Tool

Clamp off your flexible brake hoses before removing cylinders so fluid won't leak out, or air leak in. This handy tool saves time and makes the job a lot neater.

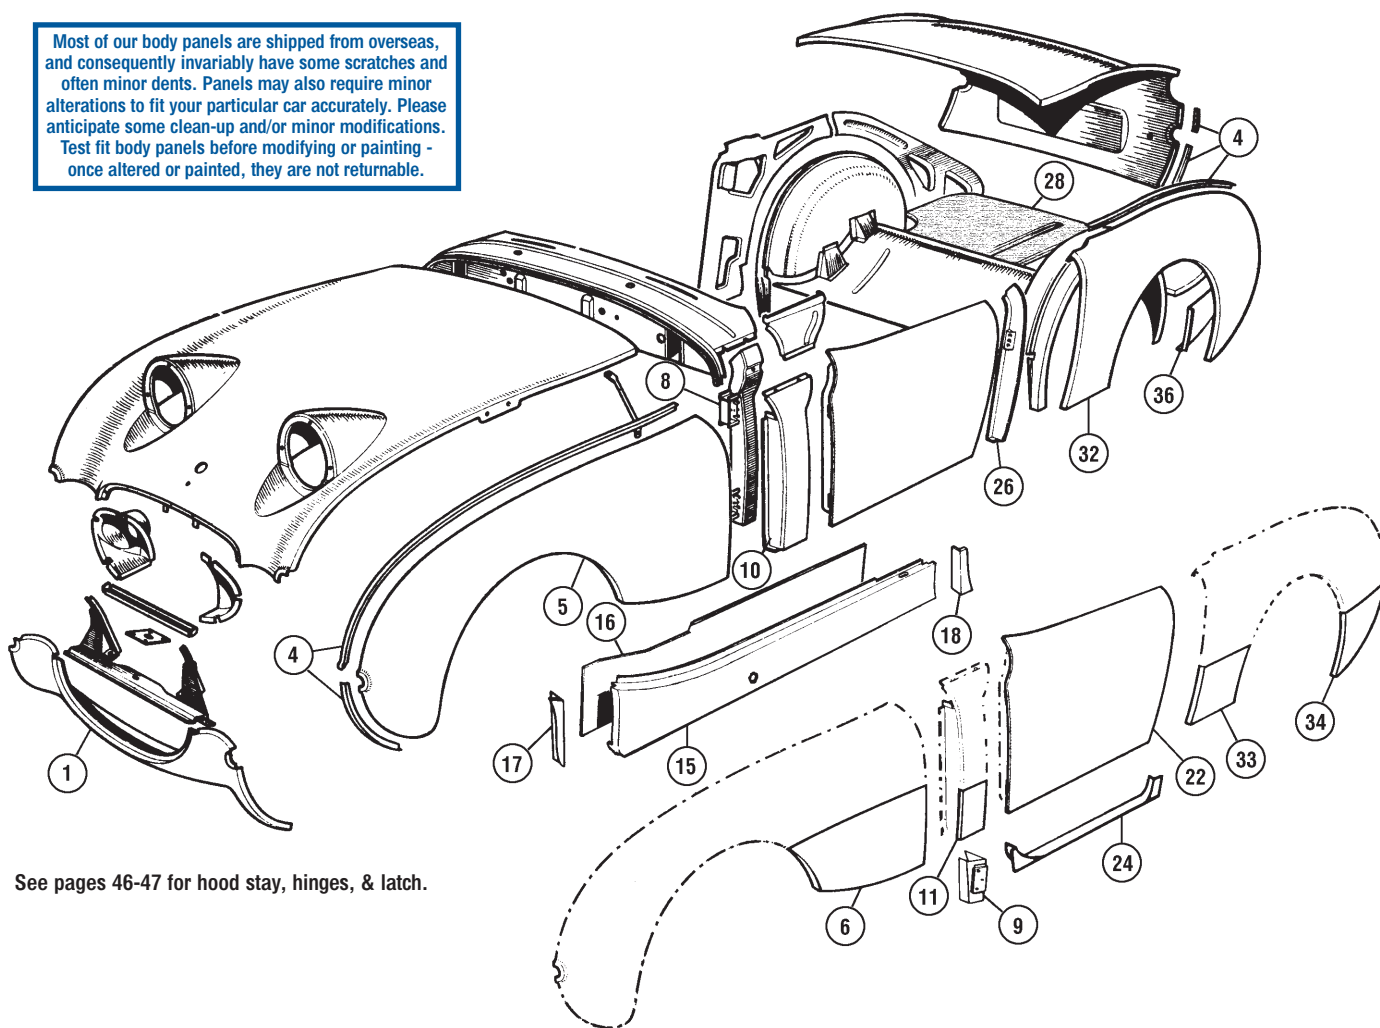

386-855 \$16.50

# Body Panels

Most of our body panels are shipped from overseas, and consequently invariably have some scratches and often minor dents. Panels may also require minor alterations to fit your particular car accurately. Please anticipate some clean-up and/or minor modifications. Test fit body panels before modifying or painting - once altered or painted, they are not returnable.

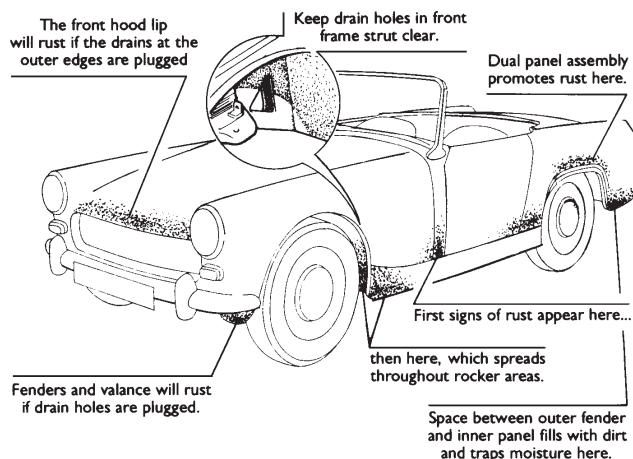

See pages 46-47 for hood stay, hinges, & latch.

# Body Panels

Most of our body panels are shipped from overseas, and consequently invariably have some scratches and often minor dents. Panels may also require minor alterations to fit your particular car accurately. Please anticipate some clean-up and/or minor modifications. Test fit body panels before modifying or painting - once altered or painted, they are not returnable.

# Windshields

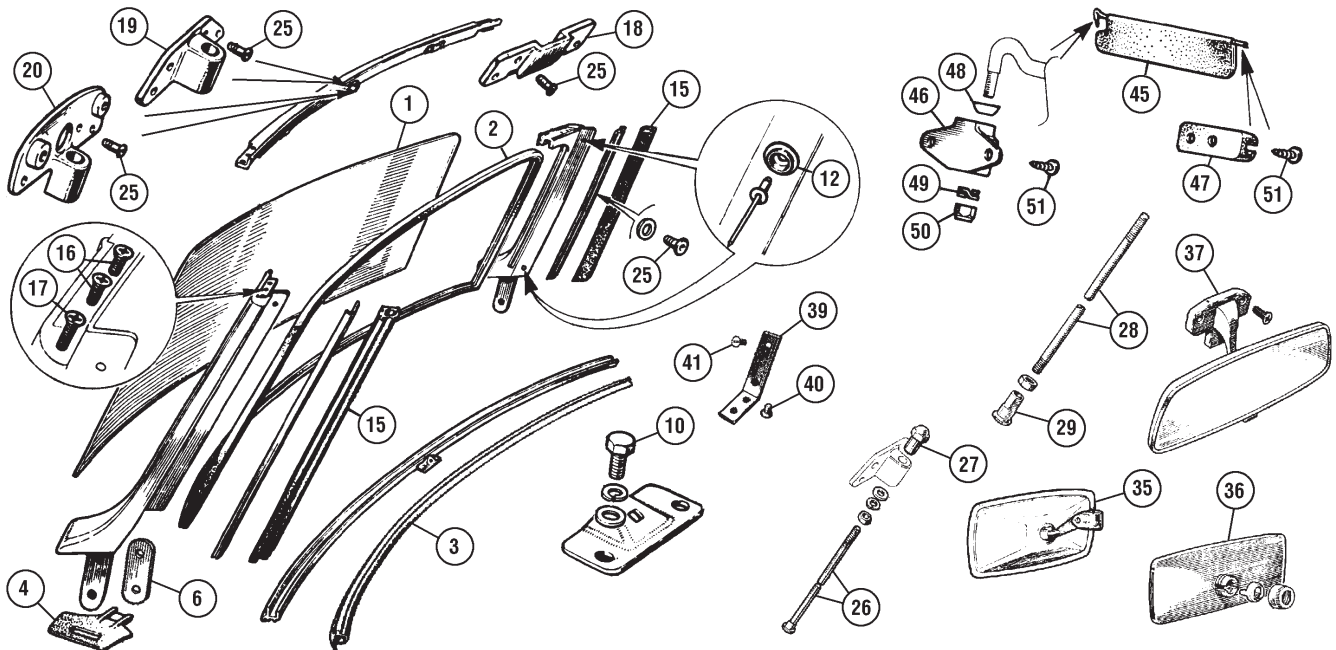

## Sprite Mkl & MkII, Midget Mkl

Early Bugeye windshield frames to (c)5476 had 9 Lift-the Dot studs across the top rail. Later frames had two, one at each corner. The threaded shanks on the later studs were shorter than on the early ones, and care must be used with replacement studs lest they crack the glass. Test fit before installing the glass, and shorten them if need be.  
Early windshield glass measured 295mm high by 1205mm wide, while the later one measures 287mm high by 1180mm wide.

### Bugeye Luggage Rack

Increase your cargo carrying capacity with this traditionally styled luggage rack. This rack mounts permanently with the included hardware and rubber mounting strips. Approx. 39" x 18".

**244-720 \$379.95**

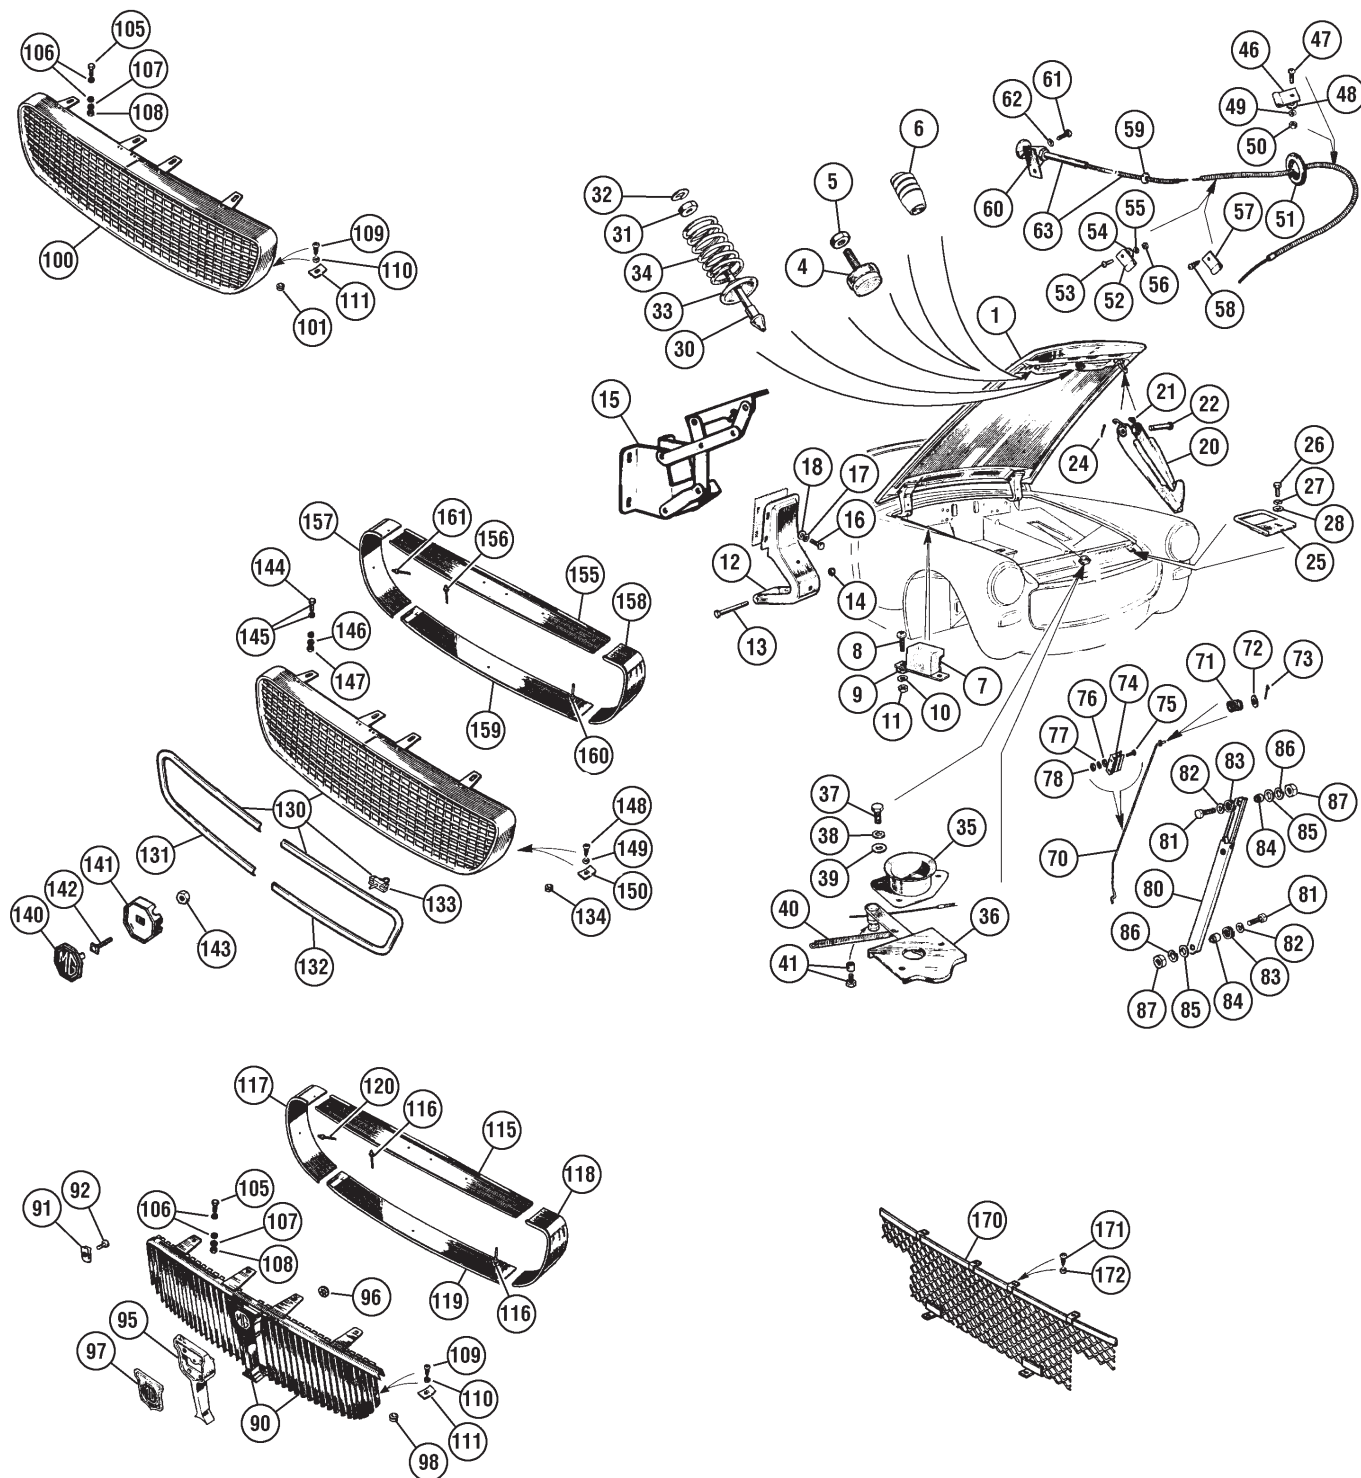

### License Plate Plinth

For Bugeyes without front bumpers, this is the official factory means of mounting your number plate. (Home market cars had front bumpers as an optional accessory, so this was an important item for those cars.)

**400-625 \$85.95**

## Trunk Lid Stay, Self-Triggering

This replacement for the stock stay rod makes opening and closing your trunk a one hand operation. It comes with easy to follow instructions, and all necessary hardware is available as shown in the above illustration.

406-985 \$20.95

## Master Lock Set

470-458	\$72.95	MASTER LOCK SET, 3 pieces (pictured at right)
470-448	\$34.95	LOCK SET, door (2 door locks with 2 keys)
470-435	\$30.95	LOCK, R/H door with 2 keys
470-440	\$30.95	LOCK, L/H door with 2 keys

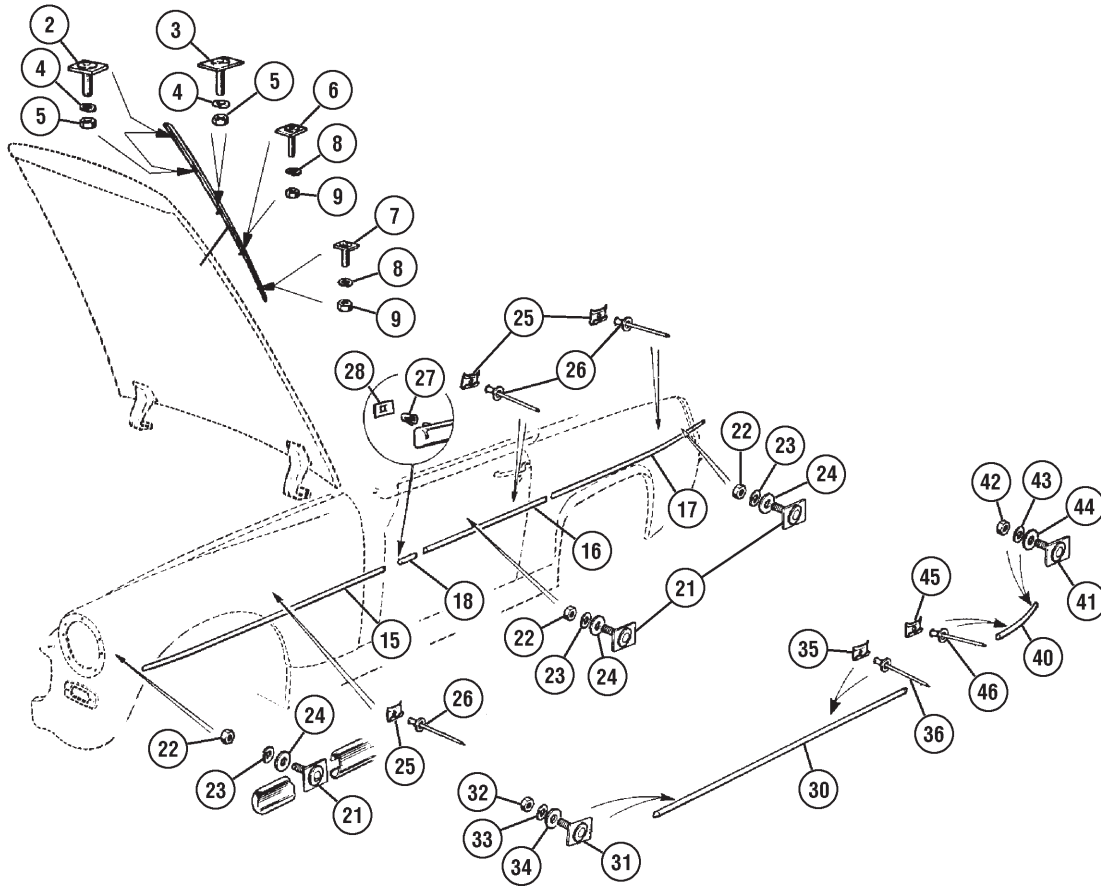

## Door Lock Fitting Kit

Fits 1964-'80. Fit door locks without using the factory style securing clips, which are not easy to fit and very difficult to remove. These new clips are also designed to prevent the lock from rotating in the door skin.

402-195 \$26.95

30	280-130	\$6.55	GASKET, lamp ass'y., to body		2
	164-050	\$9.95	GASKET, lamp ass'y., to body		2

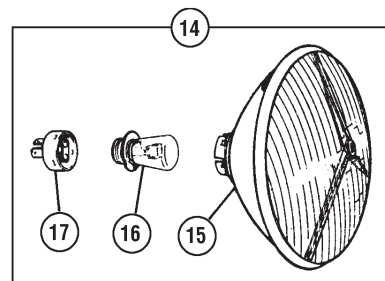

Your headlamps won't light! Check the ground connector on the passenger side inner fender under the fresh air tube clamp on 948 - 1275 models.

Most lamp problems are caused by bad bulb contacts or corroded grounds. Don't assume major problems until the unit is completely inspected.

## Mallory Dual Point Distributor

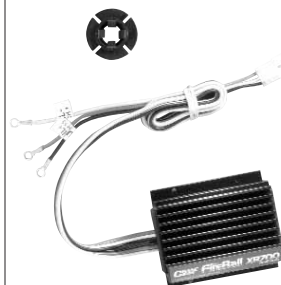

Dual point design produces hotter sparks than standard distributors. The mechanical advance-only design is adjustable to 24 degrees total advance, making these units suitable for stock or race prepared engines. Installation and adjustment is straightforward (instructions are provided), but a distributor drive dog must be installed, and the shaft drilled for the pin. The optional Advance Curve Kit includes a large assortment of advance weight springs, a degree key tool and instructions, allowing you to set whatever advance curve you want.

Dual-Point Distributor	143-180	\$280.95
Replacement Cap	143-175	\$28.95
Replacement Points (2 req.)	143-185	\$18.95
Replacement Rotor	143-190	\$7.65
Replacement Condenser	143-195	\$7.60
Advance Curve Kit	143-236	\$40.95

## Crane XR-700 Electronic Ignition

Replace your troublesome points and condenser with this easily installed kit. Crane electronic ignition systems are famous for their reliability. Expect faster starts, cleaner running and better performance at all engine speeds.

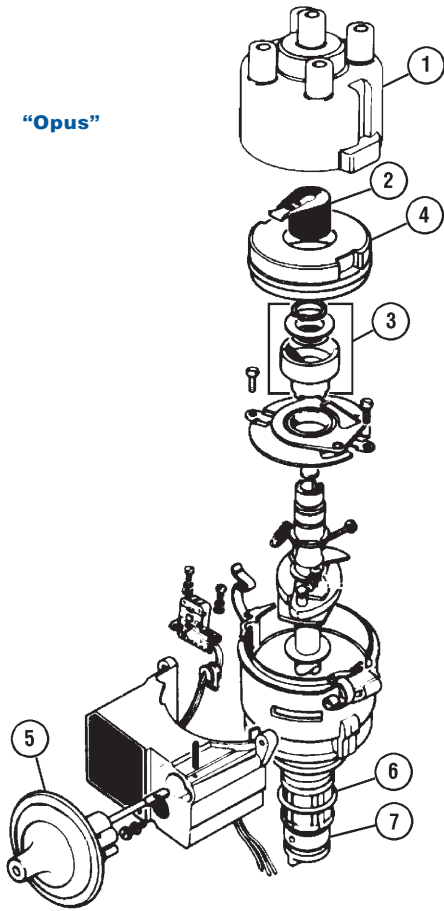

222-680	Electronic Ignition, 4 cyl. (point-type distributor, positive or negative ground)	\$130.95
222-325	Electronic Ignition, 4 cyl. (orig. electronic ignition with internal amp.)	\$128.95
222-655	Electronic Ignition, 4 cyl. (orig. electronic ignition with remote amp.)	NA

"Opus"

C.E.I.

## Lucas Electronic Ignition

The original Lucas "Opus" electronic ignition system used through 1979 featured the amplifier module mounted on the distributor body. As this system proved notoriously troublesome and unreliable, all replacements made as of 1980 were of the C.E.I. (Constant Energy Ignition) type, with a remotely mounted amplifier. Needless to say, this has caused much confusion during the intervening years when replacement components have been required. Order parts based on your distributor number.

Model Year	Orig. Opus distributor#	Replacement C.E.I. distributor #

## Ignitor Electronic Ignition

- The solution to your Lucas distributor woes.
- Completely self contained. Fits inside your original distributor
- Simple installation. Only two wires to hook up. No permanent modifications involved.
- No points to set or change.
- Impervious to dust, moisture, or vibration and retains stock advance curve.
- Much less affected by distributor shaft wear, firing accuracy to within 1/4". (Distributor not included!)

Points-type distributor (positive ground)	222-555	\$127.95

## Crane Ignition Coil

A tired, low energy ignition coil will rob your car of valuable power. The Crane PS40 "nickel plated" coil is perfect for street or high performance applications where sustained high r.p.m. use can outrun a standard coil.

143-240 PS40 Nickel Plate Coil \$58.95

## Lucas "Bumblebee" Ignition Wire

Its bright yellow and black coloring led to its descriptive nickname. This solid copper core wire is so good it was used for years by factory teams. Sold per foot.

571-020 \$3.25 per foot

## Tar-Top Battery

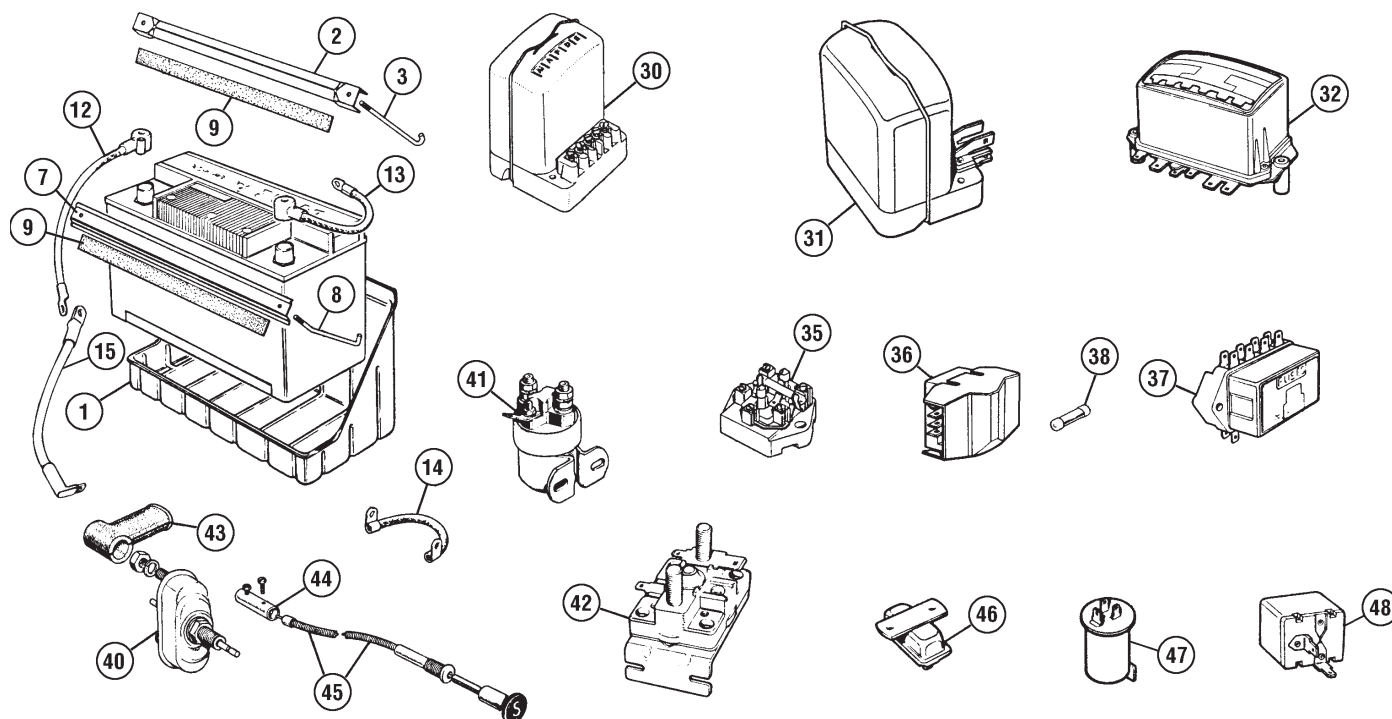

This is the correct battery for early Sprites and Midgets. Not only do they fit right, and the terminals are in the correct positions, but they have the true original style "tar top" construction. For 1958-'67 positive ground cars.

459-480 \$200.95

\* Sprite Mkl-MklII and Midget Mkl standard fitment was single horns of types no longer available. Bugeyes used #60 as options, while later 948cc cars used the 1098-1500 type as options.

Generators are suitable for either negative or positive ground systems providing they are polarized to suit the particular electrical system immediately after fitting. Bolt generator to engine, do not connect the cables to the "D" and "F" terminals, but proceed as follows:

1. Determine which battery terminal is ground.
2. Temporarily connect a length of wire to the battery positive terminal for negative ground systems, or to the negative terminal for positive ground systems.
3. Flick the other end of the wire several times against terminal "F". This serves to re-polarize the generator.
4. Remove temporary connection and connect the cables to the "D" and "F" terminals.

## Convertible Tops

Robbins high quality replacement tops duplicate the original tops in almost all respects. Sun-Fast is an acrylic canvas which is soft and flexible over a wide temperature range, yet is waterproof, and highly resistant to sagging, billowing, shrinking and fading. (Sun-Fast tops are made to order, so please allow 6 to 10 weeks for delivery.)

Tops are supplied with all snaps and fasteners, but do not include the header rail (except where noted), body hardware or rear anchor bar.

# Interior Products

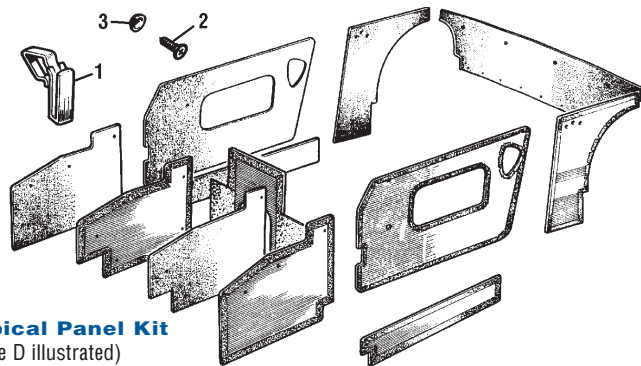

Restore your Sprite or MG Midget to original specifications with British made reproduction upholstery kits. With duplicated original patterns, vinyls, and even dielectrically welded seams where appropriate, your car will look factory new. Our seat and panel kits are complete and straightforward to install. The seat kits (see pages 56-57) include squab and cushion covers along with seat back extension covers where appropriate. The panel kits include sufficient vinyl to cover your dash panel and cockpit as required, new footwell boards, gear-box tunnel boards, inner sill boards, door pocket boards and rear quarter panels.

Free sample cards are available: Upholstery #878-160, Carpet #878-360.

**Moss Seat Kits** All front seat kits include covers for both front seats. No matter what else you do to your car, one thing which everyone notices is the condition of the seats. Put your seats in tip top condition with a "just as it came from the factory" vinyl kit, or upgrade your car's interior with one of our luxurious leather kits. (Don't forget pads and cushions - we stock a complete selection to properly fill out your new covers, and make your "new" seats as comfortable as can be.) All of the Sprite & Midget seat kits we sell are made in England of the very best materials, patterned exactly like the originals.

## Diagnosing Wiring Troubles! (Words of Wisdom to Live and Drive By)

Does your car let you down every time you try to start it, or those wipers only work when it is not raining? Perhaps the indicators go dim every time you apply the brakes, and the horn only operates when the lights are off. Before you go out to buy new lights, horns, switch gear, voltage rectifiers and anything else that carries an electrical current, it may be worthwhile spending time checking out the wiring rather than shelling out on new parts.

Quite often I have found that electrical components supposedly faulty, are perfectly all right, i.e., "blown" headlamps which are intact, switches that work when connected to a multi-tester, horns that stop making funny gurgling noises and operate correctly when connected to the battery for a test. Many electrical faults are caused by two frequently overlooked factors, either working separately, or together to produce a variety of interesting visual and sometimes pyrotechnic effects. The first of these factors is simply caused by age and the climate - electro-rheumatism if you like. The second is caused by that stalwart of the motoring world, Captain Accessory!

I am always surprised by the large number of good quality products on the market (and this does include radios, etc.) which are let down either by the cheap, easy-to-use connectors sold with the kit, or by "hash wiring" on the part of the installer. Fitting any accessory should be dealt with in the same way that any other task should be undertaken on a vehicle - properly. Connections should be mechanically and electrically sound. The worst electrical problems I have faced have been caused by "bodged" wiring or faulty connections. Easy-to-use connectors often provide me with hours of entertainment, as does unwrapping electrical insulation tape to find wires that have been just cut, stripped back and twisted together. It always works for a while! And it's not bodged wiring - some products are of an appalling quality. For example, I have tried various different HT leads in my car to "improve the quality of the spark", "reduce resistance", and "provide better ignition". Most of these leads have been useless. It doesn't matter two hoots that the PTFE casing and superior quality copper core offers less resistance than the normal standard item - what matters is that if the cap doesn't fit the spark plug, it will just bounce off. One famous make had such appalling connections that it would not fit into the standard Lucas distributor. If you are going to tackle any electrical work for your car, then do it properly and do it once. Throw away those cheap connectors and get the right tools to do the job properly - because I can guarantee that if you don't, that one day you'll wish you had - or even worse, you'll get rid of the car because it keeps going wrong. (I've picked up a few cheap cars like that which sing after two or three hours with a soldering iron!)

### Get the Right Tools:

1. Soldering Iron - Get one with: 5 to 15 watts output, stay clean tips, decent stand, and PTFE leads (which make the iron easy to handle).
2. You probably already own one of those multi-purpose devices that cuts, strips wires and fits connectors. Throw it in the trash. Buy instead: Long Nose Pliers, Side Cutters, Wire Strippers, Insulation Tape, and Solder (60 - 40 lead/tin mix with flux incorporated).
3. Connectors - Get the type of connectors that are already in use on your car - spade connectors and bullet connectors (that can be soldered) and throw the crimp connectors into a bin!

### Three important safety tips:

1. Disconnect the Battery  
A fully charged battery can use around 120 amps to turn over a cold car engine. Making a mistake and accidentally connecting the positive to the earth can have some interesting affects, i.e.:  
i. Any wire involved in a direct connection will act like a fuse and melt (this includes HT wire).  
ii. The battery could explode if an HT wire does not fuse quickly enough.  
iii. 120 amps is enough to weld your screwdriver to any object very easily.  
iv. You can receive nasty burns if you use yourself as a suitable earthing point. (Remember DC current differs from AC in that it does not change direction - once you get to grips with DC it won't let go!)

### 2. Holding the soldering iron

Never grab the soldering iron if it starts to fall. Sounds obvious, but there are still plenty of electrical engineers around who hold out their left hand when greeting somebody!

### 3. Suitable wiring

Finally, make sure that the wires you are using have the correct current capacity for the power they have to take. Using cable that is too thin is the electrical equivalent of reducing three lanes of motor way into one - total breakdown - if the current is much higher than the wire, the wire will act like a fuse and melt.

### Making Connections

#### 1. Spade connectors

Strip back 1/4" of wire without ripping out half of the strands, (if you have never used wire strippers before, have plenty of practice with some old bits of wire) twist the strands together and solder the bare end.

Always heat the wire with the soldering iron and apply the solder to the wire while it is still in contact with the iron. The wire must be hot enough for the solder to flow into the wire strands - but don't keep the iron there for too long, otherwise the outer sleeve of the wire will melt back. It is an art worth learning.

Do not apply solder to the iron and then try to "blob" the solder on to the wire - it never works because the solder "dries out" as the flux evaporates, and then the resulting joint can become brittle and prone to breaking (aka "Dry Joint"). Once cool, fit a spade connector sheath over the wire and then crimp the connector to the wire as shown in the diagram. The crimping makes a mechanically sound connection, but this is not enough. Returning to the soldering iron, you then need to apply heat to solder the wire to the connector to ensure an enduring connection, just like they do at the factory.

#### 2. Bullet connectors

Bullet connectors are needed where (A) two separate lengths of wire are to be joined together or (B) where an extra wire is to be added to a main feed.

Many bullet connectors can be crimped on as well as soldered to enhance the quality of their connection, but the stock items used by BL tend to be a bit more tricky and can only be soldered - so you must ensure that the soldered connection is not dry! Strip back 3/8" of cable and solder the strands. Insert in the end of the bullet - it may help to "kink" the strands slightly to keep the bullet in place - and then re-apply the soldering iron to the top of the bullet. Allow it to heat up and then apply the solder through the hole at the top of the bullet so that it can run inside, attaching the cable to the wall of the connector.

The advantage of these connectors is that, if corroded, the connector block can be thrown away and a new one fitted without having to do any more soldering. Also, they can provide multiple outlets for power, but watch out for that current overload on the original feed wire!

The disadvantage is that the connector is a mechanical fit and prone to electrical failure when corroded, which is why many cars start going wrong after five year's use!

### An Extra Fuse Box

If you are accessory mad, the use of a fuse box with a direct link to the solenoid may provide a safe, efficient answer, rather than connecting countless new wires onto an overburdened wire feed.

Again, make sure that the wire, from the feed to the box has sufficient capacity to deal with any load placed upon it (an in-line fuse may further protect the entire system).

Is it worth the effort you might ask? Yes! A clean job is a good job!

1. If it's soldered, then the connections will be better, stopping niggling electrical failures and dangerous burn-outs; the connectors are cheaper too.
2. The proper connectors often allow easier access for repair of equipment.
3. Stops wires from sparking and equipment lasts longer.
4. It looks better, too!

# NEW Sprite-Midget Supercharger System

The new Moss Motors designed supercharger system uses the same Eaton positive displacement Roots type supercharger found on contemporary applications such as Jaguar and Mercedes Benz.

Designed to fit the 1275cc engine, the kit will work with either generator or alternator equipped applications. The extra loading will reduce the life of generator bearings, so we also offer an alternator upgrade kit.

Our engineers designed an intake manifold that provides equal airflow, pressure and fuel mixture to each cylinder. This careful design works with the supercharger to increase torque even at idle. The latest generation Eaton blower features an internal bypass system that improves operating efficiency and reduces fuel consumption by allowing the boosted mixture to re-circulate under low load conditions, cutting down on drag.

The supercharger kit is very complete and includes a 4 rib serpentine belt drive system with automatic adjustment. Carburetion is provided by the latest version of the SU HIF44 and a K&N air filter is included to make the package complete. A new water pump, NGK spark plugs and very detailed instructions make installation a breeze.

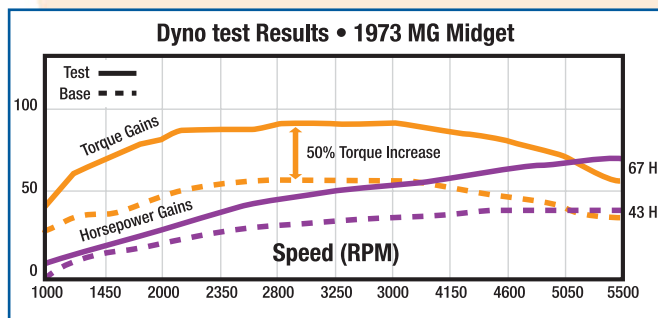

A dramatically linear increase in torque and power produce a driving sensation without the drivability, cooling and fuel consumption problems normally found with traditional performance modifications.

A competent mechanic or hobbyist can install the kit in about 8 hours, but professional installers may charge as much as 12 hours to ensure that all other systems are in good shape and that the tuning is spot on.

**150-088 1275cc Sprite/Midget Supercharger System \$3145.00**

- 100,000 mile limited warranty on the Supercharger rotor assembly.
- Jetted and modified SU HIF 44 carburetor
- K & N air filter
- New Water Pump
- Automatic belt tensioning
- All hardware for installation
- Detailed instructions

**Was 43 HP Now 67 HP!**  
**Was 53 Ft. Lbs. Now 78 Ft. Lbs.!**

These results were both recorded on a Mustang Dynamometer and show the relative improvement to a 1973 MG Midget with stock 1275cc engine. Dynamometers will vary, so when comparing horsepower figures always reference the type of unit used. For comparison, the modified engine pictured produced 95.4 HP @ 6000 rpm and 89.0 Ft-Lbs of Torque @ 4250rpm. This was achieved with an alloy head, 1330cc overbore and high boost upgrade kit.
